

# Wine Cork Name Card Holder

Uncork your creativity with these easy place cards!

Skill Level:

Time:

## Materials

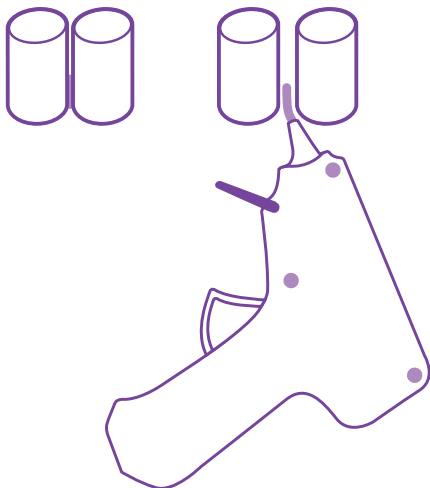

4 wine corks  
hot glue gun  
ribbon  
decorative scrap paper

## Instructions

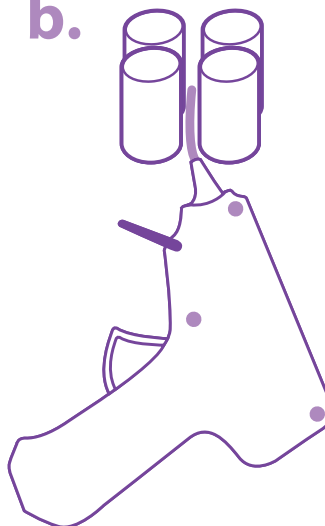

1

About an inch from the bottom, glue two sets of two wine corks together making sure that they're flush at the bottom. Then glue the wine cork sets together, again making sure that the glue is only an inch from the bottom.

a.

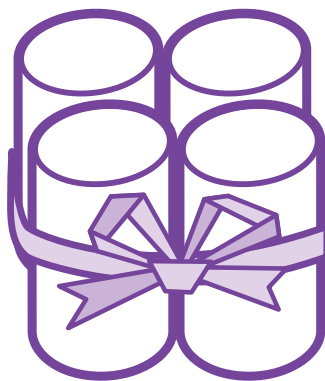

b.

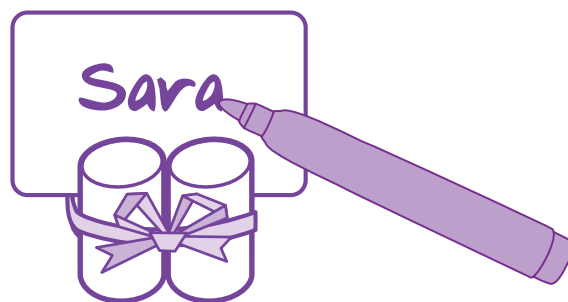

2

Tie a ribbon or any other decorative material around the center of the wine cork bundle.

3

Create your name cards from scrap paper. We used a cardboard coffee sleeve and leftover paint chips from a painting project, but you can look to your recycling bin for inspiration. Slip the card between two sets of corks. Set your table with your upcycled name cards and enjoy your meal.

**If you have completed this project and still have more materials to upcycle, be sure to sign up for the TerraCycle Brigades at [www.terracycle.com](http://www.terracycle.com) and send them in. These items will be transformed into new products, and better yet, your collection will earn money for your favorite charity!**
