

# McVitie's Gift Bow

Wrap your presents with this easy upcycled bow!

Skill Level:

Time:

## Materials

1 McVitie's biscuit wrapper  
marker or pen for tracing  
scissors  
hole punch  
paper fastener  
gift bow template or ruler

## Instructions

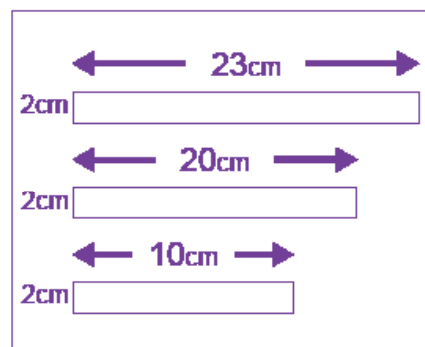

1

Either print out the gift bow template at the end of the instructions and cut pieces indicated, or cut according to the following dimensions:

Cut 1 piece: 10 cm x 2 cm

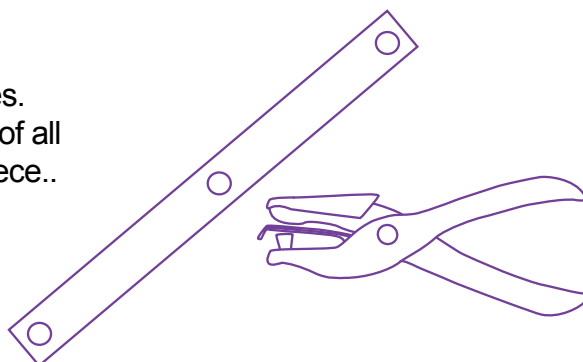

Cut 2 pieces: 20 cm x 2 cm

Cut 3 pieces: 23 cm x 2 cm

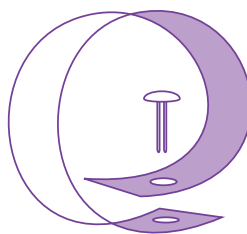

2

Punch holes on ends of all pieces. Then, punch holes in the centre of all pieces except for the shortest piece..

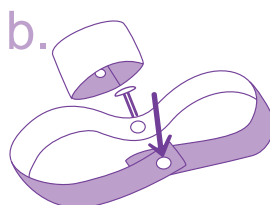

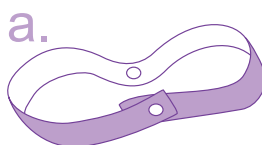

3

Create a loop with the shortest piece and insert the paper fastener through the punched holes.

4

Take the second shortest piece and create a loop lining up all 3 holes in the centre. Take the paper fastener from small loop and insert through the holes in the second piece.

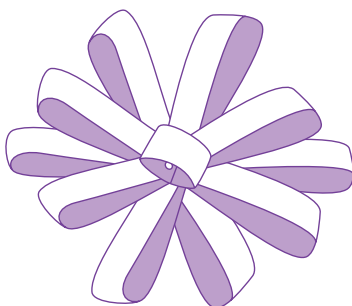

5

Repeat step 4 for all remaining pieces. Insert the paper fastener through each one, going from shortest to longest. Secure the back of the bow with by opening the ends of the paper fastener.

6

Wrap your package in another piece of wrapper, or another upcycled type of paper. Add your bow to the top and that's a wrap!

**If you have completed this project and still have more McVitie's packaging to upcycle, be sure to sign up for the TerraCycle Brigades at [www.terracycle.co.uk](http://www.terracycle.co.uk) and send them in. These items will be transformed into new products, and better yet, your collection will earn money for your favourite charity!**
