

WINE BOX WINE CHARMS

WINE BOX WINE CHARMS

Upcycle your wine box with this charming project!

MATERIALS

- The Naked Grape empty wine box
- Dime

TOOLS

- Scissors or craft knife
- Pencil
- Cutting mat (optional)
- Permanent marker (optional)

START!

STEP 1 Open up your box and lay it on a flat surface. Draw simple shapes that are approximately 1 1/2 "in diameter. Repeat for as many wine charms as you'd like.

STEP 2

Cut out your shapes with your scissors. Simple shapes are easiest to cut.

DESIGN TIP!

A craft knife will give you a much cleaner and smoother edge.

STEP 3

Place the dime slightly off-center on top of your cut shape. Trace around the dime. Then draw a line to the closest edge of the charm. This will be the part that fits around the stem of the wine glass. The stem will enter through the slot.

STEP 4

Cut along the line and around the traced circle.

STEP 5

Optional: Use permanent markers to personalize the charms with the names of your guests. Slide the finished wine tag onto your glass and charm your guests with this easy upcycled project.
