

ESSENTIALS

2026

Louis Tellier has embodied French excellence in high-end manual kitchen equipment since 1947. Inventor of the first professional vegetable mill, the brand now manufactures durable, ergonomic, and innovative tools. From baking sheets and molds to precision mandolines and an array of other essential tools, each instrument combines traditional craftsmanship with professional performance. Appreciated by chefs and baking enthusiasts, these tools transform everyday cooking into a refined experience.

Stainless Steel Compact-Pro Mandolin | BRONCP02

Louis Tellier has drawn on a wealth of expertise to design the new Compact-Pro mandolins, a perfect blend of French and Japanese culture.

- Made from stainless steel
- Compact and streamlined, adaptable to GN1:1 or 1:2 trays (horizontal cuts)
- High yield and various thickness adjustments (from 0.5 to 10 mm)
- Cutting width: 95 mm
- Comfort and safety: ergonomic transparent pusher
- Diagonal and honeycombed stainless steel blade made in Thiers (France) to reduce vegetable adhesion
- Optimal stability: non-slip coating base
- Includes 2 julienne cutters (4 & 10 mm)
- Optional interchangeable blades 1, 2, and 7 mm

Color	Materials	Length (cm)	Width (cm)	Height (cm)	Weight (kg)
grey	stainless steel	39	16	4.5 19 (with stand)	1.25

Compact-Pro Basalt Mandolin | BRONCP01

The Compact-Pro Basalt mandolin offers exceptional cutting quality with a design that makes it easy to use.

- Made from stainless steel and PP plastic
- Compact and streamlined, adaptable for GN1:1 or 1:2 trays (horizontal cuts)
- High yield and various slice thicknesses (from 0.5 to 10 mm)
- Cutting width: 95 mm
- Comfort and safety: ergonomic transparent pusher
- Diagonal and honeycombed stainless steel blade made in Thiers (France) to limit the adherence of vegetables
- Optimal stability: Non-slip coating base
- Includes 2 julienne cutters (4 & 10 mm)
- Optional interchangeable blades 1, 2 and 7 mm

Color	Materials	Length (cm)	Width (cm)	Height (cm)	Weight (kg)
grey and black	stainless steel and PP plastic	38	11.5	4.5	0.7

Professional Stainless Steel Mandolin with protective carriage | 3839

The original Louis Tellier mandolin, created in 1946! This high-end professional mandolin is ideal for slicing and making fries or julienne.

- Made from stainless steel
- Includes one smooth blade, one waffle cutting blade, and two integrated julienne blades to vary the presentation of your vegetables
- Adjustable thickness of slices and waffles from 3 to 10 mm for different cutting formats: thin or thick slices, julienne, Pont-Neuf potatoes, matchstick fries, etc.
- Table edge support and four non-slip pads offer good stability
- Includes a protective carriage for maximum yield and safe use

Color	Materials	Length (cm)	Width (cm)	Height (cm)	Weight (kg)
grey	stainless steel	41	13.5	4.5	1.8

Super professional mandolin | 25000

The super professional stainless steel mandolin ensures precise, varied, and efficient cutting with its 5 interchangeable blades included.

- Made from Stainless steel
- Includes one smooth blade, one waffle cutting blade, and five interchangeable julienne blades (1-2-4-7 and 10mm) to vary the presentation of your vegetables
- Adjustable thickness of slices and waffles from 3 to 10 mm for different cutting formats
- Table edge support and four non-slip pads offer good stability
- Pusher included

Color	Materials	Length (cm)	Width (cm)	Height (cm)	Weight (kg)
grey	stainless steel	40	11.5	4	1.5

The Chef's mandolin

15000

The Chef's Mandolin has adjustable slices and waffle thickness. It is reversible to use two blades. You will be able to do smooth or embossed slices, straw potatoes, French Fries and Julienne with the 4 interchangeable blades included.

- Made from stainless steel and PP
- Adjustable slices and waffle thickness
- Reversible
- Smooth or embossed slices, straw potatoes, French Fries and Julienne (interchangeable blades 2-4-7-4-10 mm)
- Non-slip stand and handles
- Pusher included

Color	Materials	Length (cm)	Width (cm)	Height (cm)	Weight (kg)
grey	stainless steel and PP	40	13.5	5.5	1.5

Stainless Steel Truffle & Small Vegetable Razor

1020RT

This tool allows for finely slicing your ingredients, whether they be truffles, mushrooms, Parmesan, or even chocolate!

- Made from stainless steel
- Knob to adjust slice thickness
- Notched blade for quick and easy cutting

Color	Materials	Length (cm)	Width (cm)	Height (cm)	Weight (kg)
grey	stainless steel	18	8	2	0.1

Stainless Steel Truffle Mandolin 1010CT

The truffle mandolin has an inclined blade and a razor sharpening to cut fine truffle chips in a few steps. The result is precise, clear, and perfectly enhances the preparations. Its design makes it a stable utensil.

- Made from stainless steel
- Side knob for adjustment slice thickness from 0.1 to 4 mm
- Cutting width: 5.8 cm

Color	Materials	Length (cm)	Width (cm)	Height (cm)	Weight (kg)
grey	stainless steel	18	7	2	1.1

Stainless Steel Food Mill N°3 31cm X3

Since 1947, Louis Tellier has revolutionized the world of cooking by creating the first professional vegetable mill. The semi-professional vegetable mill N°3 allows you to easily make your sauces, purees, compotes, or vegetable soups in large quantities.

- Made of stainless steel
- Sold with 3 sieves: Ø 1.5 mm (coulis and sauce) - Ø 2.5 mm (purées) - Ø 4 mm (fibrous vegetables)
- Ergonomic crank for comfortable grip
- Makes 1.5 kg/min of soups, compotes, purees

Color	Materials	Diameter (cm)	Length (cm)	Height (cm)	Weight (kg)
grey	stainless steel	31	35	25	1.3

Tin-Plated Steel Food Mill 31cm | S3

The semi-professional vegetable mill N°3 in tin-plated steel guarantees high durability and easy maintenance.

- Made of tin-plated steel
- Sold with 3 sieves: Ø 1.5mm (coulis and sauce) - Ø 2.5mm (purées) - Ø 4 mm (fibrous vegetables)
- Ergonomic crank for comfortable grip
- Makes 1.5 kg/min of soups, compotes, purees

Color	Materials	Diameter (cm)	Length (cm)	Height (cm)	Weight (kg)
grey	tin-plated steel	31	35	25	1.5

Stainless Steel Professional Mill N°5 37 cm | X5

The mill N°5 from Louis Tellier is ideal for restaurants. Featuring a double crushing functionality, it allows you to prepare all kinds of recipes effortlessly and in large quantities.

- Made of stainless steel
- Ergonomic crank allows comfortable grip
- Makes 5 kg/min of soups, compotes, purees
- Sold with 1 grid: Ø 3 mm; 4 other sieves available in option

Color	Materials	Diameter (cm)	Length (cm)	Height (cm)	Weight (kg)
grey	stainless steel	37	41	33	3

Professional tinned food mill n.5 37 cm | M530

Restaurant model. Double crushing for maximum productivity. Interchangeable sieve discs.

- Made of tinned steel
- Ergonomic crank allows comfortable grip
- Makes 5 kg/min of soups, compotes, purees
- Sold with 1 grid: Ø 3 mm; 4 other sieves available in option

Color	Materials	Diameter (cm)	Length (cm)	Height (cm)	Weight (kg)
grey	tinned steel	37	41	33	3,3

Stainless Steel electric food mill 37 CM | EX5

Stainless steel electric mill, ideal for all types of preparation (soup, sauce, mash). Allows you to make 5 kg of preparation in 1 minute. With reverse gear.

- Stainless steel
- Maximum 500 people
- 5 kg/min
- Sold with a 3 mm Ø sieves; 4 other sieves available as options: Ø1 (EX5010), Ø1,5 (EX5015), Ø2 (EX5020) y Ø4 (EX5040)
- Available to order

Color	Materials	Diameter (cm)	Length (cm)	Height (cm)	Weight (kg)
grey	stainless steel	37	37	108	23,5

Tin-Plated Mill N°10

39 cm | P1030

The mill N°10 is ideal for community kitchen. It enables the preparation of all types of dishes effortlessly and in large quantities.

- Made of tin-plated steel
- Ergonomic crank allows comfortable grip
- Makes 10 kg/min of soups, compotes and purees
- Sold with a 3 mm Ø sieves; 4 other sieves available as options: Ø1 (P10010), Ø1,5 (P10015), Ø2 (P10020) y Ø4 (P10040)

Color	Materials	Diameter (cm)	Length (cm)	Height (cm)	Weight (kg)
grey	tin-plated steel	39	45	97	13

Sieves 1 mm / 1.5 mm / 2 mm / 4 mm for Professional Mill N°5

| X5010 / X5015 / X5020 / X5040 stainless steel
| M5010 / M5015 / M5020 / M5040 tinned steel

The sieves are designed for use with mill N°5. They are made from stainless steel, a hygienic, and durable material.

Ø 1 and 1.5 mm sieves: for sauces and coulis.

Ø 2 and 3 mm sieves: for purées, soups and compotes.

Ø 4 mm sieves: for fish soups and stringy vegetables such as leeks and spinach.
