Clearing Family Wounds

Summary

This is an awesome month of aligning you with the energy of the ultimate, harmonious parents!

We all had parents that probably were not that harmonious. It's very rare when somebody had parents that everything went well. Usually, even if your parents loved you very much, there were issues. But a lot of Starseeds and Forerunners of ascension experienced difficulty when they are born into earthling families.

So for all of you who have had a lot of issues with the type of families that you incarnated into, this is going to be a great month of a possibility of cleaning up that kind of a pain load that you have experienced as children so that it could be moved away from, into the next level. Sort of like transcending it into the ultimate harmonious way of being parented by the Universe.

We will be working with the energies of this really awesome civilization that has moved on to a different dimension (ascended). They are called Kihshians. They have created, in the 4th dimension of this planet, a grid of consciousness that is supportive of the harmonious Mother and harmonious Father blueprint. They, themselves, live that pattern. That's why their civilization was so harmonious to the point that it was able to ascend.

This is the month to really participate in this kind of clean-up for yourself and for the planet; to connect to this amazing civilization and their beautiful blueprint for the ultimate, harmonious role of the Mother and the Father so that we can reconfigure who we see as parents, instead of our genetic family, into the harmonious blueprint. This then allows us to clean up our issues with the genetic family, or the family of origin.

We will talk about the Kishian civilization. I'm going to lead you through this incredible meditation of actually walking through that civilization that has ascended and connecting you, in the 4th dimension, with that harmonious parenting blueprint for you to be nurtured and supported.

Remember that you **MUST** see yourself as **ENOUGH**
in order to fully energetically participate
in the Transcension Gate project!

Every bit counts.

Thanks, TG builder!
