

This document describes the Housing Finance Agency (HFA) Hardest-Hit Fund (HHF) data that state HFAs are required to provide to the U.S. Department of the Treasury. It includes quarterly borrower characteristic data and program specific performance data. All HFA HHF data submitted to the U.S. Department of the Treasury must be accurate, complete, and in agreement with retained HFA records. Data should be reported by each state HFA by the 45th day following the quarter.

Data requested in the "Borrower Characteristic" worksheet should be reported in aggregate for all HHF programs run by the state HFA. Program specific data is separated into reporting tabs for each individual program. State HFAs should report program performance data on an individual program basis. A data dictionary has been provided to assist in the definition of each data point.

Template Version Date: October 2013

^{*}Because of the changes explained in the following footnotes, the total number of borrowers no longer in the program is different than the sum of the current quarter and the previous quarter's cumulative.

[^]Borrower were reported as "foreclosure" in the previous quarters when the foreclosure sales notices were received. However, we realized that the actual foreclosure sales did not happen in some of those borrowers who were reported as foreclosure. We removed them from the list of foreclosures. Therefore, the current cumulative number of foreclosures are different than the previous one.

Tennessee HFA Performance Data Reporting- Program Performance Hardest Hit Fund Program QTD Cumulative

[^]We did not find out two (2) deed in lieu that happened in the previous quarters until currently. Therefore, they were not reported in the previous quarters.

[^] We just recently found out two short sales that happened in the previous quarter. Therefore, they were not reported in the previous quarters.

^{**}The current cumulative number is different than the sum of current quarter and last quarter's cumulative because of the files that were reworked due to payment changes, payment refunds, and or interruptions to payments due to bankruptcy, HAMP mods and DOJ.
