## Courses

6. It should be noted that:
  - a. Matters concerning policy or Disclosure and Barring Service (DBS) enquiries or course design should be addressed through the single Service Manning authorities or single Service Customer Agents. Units or course loaders are strongly advised to check if an application for 'Enhanced or 'standard DBS is required for attendance at a DCHET Course.   - b. The maximum number of students on each course cannot be exceeded without approval from higher authority. Any requirement to increase the agreed loading should be formally addressed to Headquarters DHET via the relevant single Service Customer Agent. In the event of a course being over-subscribed, the single Service Customer Agent will be responsible for deciding the priorities. The minimum loading detailed is set to reflect various academic and practical requirements. In addition, DHET and its customers have agreed a Performance target of 95% loading for all courses.

  - d. Applications from Reserves should be submitted by the 12-week point prior to the course commencing. At the 12-week point, Reserve personnel will be notified whether their application has been successful or not via email. Unsuccessful applications will automatically join the list of all applications received after the 12-week point. These will be considered along with all other bids, with places allocated 6 weeks prior to the course commencing.
7. Individual application forms for courses are at Annex A. One application form should be used for each course applied for. Additionally, the definition of Bidding Categories is at Annex B and the Army prioritisation matrix for Army Courses run at DCHET is at Annex C.

  - a. Forward individual application forms/nominal rolls to the lead TDU unless indicated otherwise by the bidding category or notes.
  - b. Application forms are to include Official Number, Rank / Rate / Title, Surname and Initials and Parent Unit. The gender of the candidate is to be included to ensure accommodation is available. Application forms are to be forwarded to the Crse Applications Gp Mailbox, no later than 6 weeks prior to course commencement.
  - c. If applicable, for Army Courses apply the appropriate Priority Category to the application (using the process at Annex C).
  - d. Provide a short justification statement on the Application Form; this will aid in prioritising placements on heavily subscribed courses. Specify any Operational Taskings, Postings, Real Life Support tasks as evidence.

9. Joining Instructions will be dispatched to Parent Units no later than 4 weeks prior to the start of the course.

### **Pay / Pay As You Dine (PAYD) / Joint Personnel Administration (JPA) Allowances and Travelling Expenses**

10. Students on short courses should make adequate financial arrangements prior to course commencement with their parent unit. All students need to be aware that training will be delivered on sites that are PAYD sites and therefore students need to make the necessary financial arrangements to be able to pay for their meals for the duration of the course or to be able to claim it back if their unit is not yet on PAYD. All TDUs afford students full access to JPA facilities.

### **Leave**

11. Leave will not be granted and travel warrants will not be issued other than for Phase 2 students. All personnel are to be on duty for the duration of the course. Course places will not be offered to individuals during extended periods of leave e.g. maternity, sick leave.

### **Dress, Clothing and Equipment**

12. Requirements will be specified in individual Joining Instructions.

### **Reporting and Assembly**

13. Details will be given in individual Joining Instructions.

## **Accommodation**

14. a. Some DSHE short courses are delivered in Birmingham with accommodation provided at local hotels, as detailed within the individual Joining Instructions. Units will be liable for hotel charges if their personnel who have been selected to attend courses cancel with 14 days of the course start date or fail to attend. The cancellation policy is detailed in the individual Joining Instructions.
- b. The availability of Service accommodation at other training delivery locations is at a premium and students may be required to arrange their own accommodation. Where living-in is an essential element of the training package i.e. Phase 2 training, CLM courses, accommodation will be arranged and allocated on arrival. Full details of accommodation provision will be detailed in the individual Joining Instructions.

## **Medical Downgrading**

15. In cases regarding medical downgrading (e.g. pregnancy), attendance on courses should take into consideration the functional restrictions detailed in current regulations. A risk assessment will be carried out by the chain of command/course provider for all internally delivered training and the decision whether to allow commencement or continuation of training will need to take into account the wishes of the individual, physical demands of the course and any health and safety regulations pertinent to the case. Training undertaken by an individual will be determined on a case-by-case basis by the course provider with details of any training deficiency communicated to the relevant sS on completion of the course. Additional information on the physical demands of specific courses can be found in the Course Notes.
