Date:

8 February 2019

Dear

FREEDOM OF INFORMATION REQUEST - MURDER OF ROBERT ORR IN ARMAGH ON 14 MAY 1991

I can confirm that your request has been considered under the provisions of the Freedom of Information Act 2000 (FOI (A)) and the process is now complete.

You asked for the following:

"I wish to request a copy of documents referred to in your final response to request 2018/15277 that you can locate easily within the time limit."

As you are aware the MOD holds some information relating to death of Mr Orr. This information has been located in a range of documents which I have provided relevant extracts at Annexes A - C. These have been highly redacted as the remaining information they include is outside the scope of your request. Information redacted using a black box indicates that an exemption has been applied.

Some of the information you have requested could be exempt under section 23(1) of the Freedom of Information Act, which relates to the bodies dealing with security matters, although it is also possible that the information relates to none of the bodies dealing with security matters. Sections 23(1) and 24(1) are being cited in the alternative as it is not appropriate, in the circumstances of the case, to say which of the two exemptions is actually engaged so as not to undermine national security or reveal the extent of any involvement, or not, of the bodies dealing with security matters. Section 23 is an absolute exemption and, if it were engaged in this material, the MOD would not be required to consider whether the public interest favours disclosure of this information.

Any information that is not exempt from disclosure under section 23(1) could be exempt under section 24(1) of the FOI(A), which exempts information from disclosure if its exemption is required for the purpose of safeguarding national security. We cannot say which of the two exemptions is actually engaged, but to the extent that S24(1) might be engaged. We acknowledge the public interest in openness and transparency, but we consider that there is a stronger public interest in protecting national security.

Some of the information located falls within the scope of Section 26 (Defence) of the FOI(A) as its release would or would be likely to prejudice the capability, effectiveness or security of any relevant forces.

Section 26 is a qualified exemption and we have conducted a public interest test to determine whether the information should be released or withheld. The factors for this public interest have determined that whilst disclosure would demonstrate openness and transparency this is

outweighed by the detrimental effect disclosure would have in revealing the capabilities of military operational planning by compromising the methodologies and practices employed in the gathering and analysis of information. I have therefore concluded that the public interest supports withholding some information under Section 26.

All Police Service of Northern Ireland (PSNI) cases remain open and if new evidence comes forward the PSNI will reinvestigate. Release of these documents must be carefully considered under Section 31 (Law Enforcement) of the FOI(A). I have completed this consideration through a public interest test including consultation with the PSNI who have advised that release of some of the information could adversely impact on any investigative process and may jeopardise any future prosecutorial process. On this basis I am withholding some of the information under Section 31 of the FOI(A).

In addition, some of the information falls within the scope of Section 38 (Health and Safety) of the FOI(A), as its release could endanger the physical or mental health of any individual, or endanger the safety of any individual.

Section 38 is a qualified exemption and we have conducted a public interest test to determine whether the information should be released or withheld. The factors for this public interest have determined that whilst disclosure would demonstrate openness and transparency this is outweighed by the detrimental effect disclosure could have on those mentioned in the documents, or their family members and friends. I have concluded that whilst disclosure may be of historical interest, the health and safety of individuals must be taken into account especially where release would be likely to endanger, the physical or mental health of any individual. Some information has therefore been redacted under Section 38 of the FOI(A).

Additionally, some of the information contained within the disclosure constitutes personal information, such as names and addresses. Under FOI(A) this information is exempt under Section 40 (2) by reason of the first condition under Section 40 (3) (a) (i), as disclosure would contravene data protection principles under the Data Protection Act 2018 (DPA 2018). This is an absolute exemption and does not require a public interest test to be conducted in order for this information to be exempt from disclosure. Therefore all personal information has been redacted.

If you have any queries regarding the content of this letter, please contact this office in the first instance.

If you wish to complain about the handling of your request, or the content of this response, you can request an independent internal review by contacting the Information Rights Compliance team, Ground Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review should be made within 40 working days of the date of this response.

If you remain dissatisfied following an internal review, you may raise your complaint directly to the Information Commissioner under the provisions of Section 50 of the FOI(A). Please note that the Information Commissioner will not normally investigate your case until the MOD internal review process has been completed. The Information Commissioner can be contacted at: Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website at https://ico.org.uk/.

Yours sincerely

38 (Irish) Bde FOI Team

INTELLIGENCE SUMMARIES

Report Number D479915 TRB INT NEWSLETTER

8. The murder of Mr Robert Orr in Armagh on Mon 13 May 91 will probably provoke a violent reaction by PPM, possibly targeted against East Tyrone PIRA and maybe into the Armagh City area. However, PPM are more likely to murder some totally innocent Catholic taxi driver in Belfast, By way of mindless retribution.
