## Section 1 – Applications Received

**Inspection of licence applications** can be requested under the provisions of Regulation 9 of the Goods Vehicles (Licensing of Operators) Regulations 1995 by anybody who holds statutory objector status. Applications may be inspected free of charge at the Office of the Traffic Commissioner in Leeds by any person who carries written authorisation to act in that capacity.

**Objections against published applications** may be made in writing by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

You may fax a copy of your objection to 0113 2488521 but please note that you must send the original signed document through the post.

**Classification of Operator Licences** – There are three classes of licence:

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (SN)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A **Standard International (SI)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

Authorisation: 1 Vehicle(s) and 0 Trailer(s).

New Undertaking: 1. The Operator shall for the duration of this Licence engage an employee or consultant who is able to satisfy the requirements for a Transport Manager under the Act for a standard licence, including repute and professional competence, to work as its transport manager for not less than 8 hours each week under a contract that sets out their responsibilities to effectively and continuously manage the transport activities of the Operator's business and their duties as such transport manager (including management and monitoring of the Operator's compliance with the undertakings attached to this Licence). At the outset of this Licence this individual shall be Mr Enzo Gaspare Antorino. If Mr Enzo Antorino ceases to act in this role then this will be a material change requiring written notification to the Traffic Commissioner by the Operator within no more than 28 days with a TM1 (G) form and contract for the proposed replacement.. Attached to Licence.

New Undertaking: 2. There will be a 'nil defect' driver defect reporting system that shall be recorded daily fully and completely in writing. Defect reports will show rectification details for all faults found and shall be signed and dated.

The records will be retained for at least 2 years and made available to staff from the Office of the Traffic Commissioner and/or the DVSA (incorporating VOSA and DSA) promptly upon request.

. Attached to Licence.

New Undertaking: 3. The Operator shall ensure that a competent person completes an ad hoc check of at least one driver's daily walk round check each week. The findings of this check and any actions taken shall be recorded in writing and signed and the signed record shall be retained with the driver defect reporting records for at least 2 years and made available promptly to staff from the Office of the Traffic Commissioner and/or the DVSA (incorporating VOSA and DSA) upon request.. Attached to Licence.

New Undertaking: 4. Safety inspections will be pre-planned and all authorised vehicles will undergo a preventative safety inspection at no more than EIGHT (8) weekly intervals. Every preventative safety inspection shall include brake testing using either a rolling brake test or a Tapley meter/Decelerometer and the test findings shall be recorded in writing in the safety inspection record or attached as a print out to the safety inspection record. The safety inspection records will be fully and properly completed and signed off by the maintainer and all safety inspection records including all rolling road brake test results will be retained for at least 2 years and made available to staff from the Office of the Traffic Commissioner and/or VOSA upon request.. Attached to Licence.

New Undertaking: 5. Authorised vehicles will undergo a thorough pre-MOT inspection and preparation including a rolling road test which shall be in addition to the preventative safety inspections. All MOT preparation records, including all related headlamp and rolling road brake test results, will be retained for at least 2 years and made available to staff from the Office of the Traffic Commissioner and/or the DVSA (incorporating VOSA and DSA) promptly upon request.. Attached to Licence.

New Undertaking: 6. Maintenance inspections, maintenance records and rectification work on authorised vehicles and compliance with each of the undertakings and conditions attached to this Operator's licence including these additional undertakings will be audited by the Road Haulage Association or another independent trade association or transport consultancy or transport solicitor within 2 months of the date of this decision and every 6 months thereafter. Written detailed audit reports will be prepared, acted upon (with a written record made of rectification action(s) taken including any refresher or other training proposed), retained for at least 2 years and made available to staff from the Office of the Traffic Commissioner and/or the DVSA (incorporating VOSA and DSA) promptly upon request. Each audit report undertaken in accordance with this undertaking shall be forwarded to the Office of the Traffic Commissioner for the West of England within 21 days of its receipt together with the Operator's detailed written proposals and timetable for implementing each of its recommendations.

. Attached to Licence.

New Undertaking: 7. For a period of 12 months commencing from 1 April 2014, a trade association training officer or a transport consultant or solicitor shall attend

## Section 2.4 – Variation Applications Refused

No Entries

## Section 3 – Schedule 4 Applications

**Schedule 4** to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying criteria has to be met, with approval at the Traffic Commissioner’s discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

**New Applications (Section 3.1):** where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1)(a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5)(d) of the Act.

**Variation Applications (Section 3.2):** where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be lodged against the published application under Section 12(1)(a) of the 1995 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres

## Section 5 – Public Inquiries

**Note:** anyone wishing to attend a public inquiry is advised to contact the Office of the Traffic Commissioner on 0117 900 8525, the day before the inquiry, to avoid unnecessary travel should the inquiry be adjourned for any reason.

**A transcript of the taped proceedings of public inquiries** (either in full or in part) may be ordered from the Office of the Traffic Commissioner. The cost of the transcript varies according to demand and size of content and the office will be able to advise on the scale of charges when an order is placed.

Appeals against any decision published in this section must be lodged with the Upper Tribunal – Administrative Appeal Chamber (Transport), 5th Floor, Rolls Building, 7 Rolls Buildings, Fetter Lane, London, EC4A 1NL not later than 28 days after the date of the letter conveying the Traffic Commissioner's (or Deputy Traffic Commissioner's) decision. Appellants can obtain guidance on lodging appeals, including downloading the appeal form, from the website: [www.administrativeappeals.tribunals.gov.uk](http://www.administrativeappeals.tribunals.gov.uk)
