

ALICE Receptionist

LARGE CORPORATIONS

ALICE Receptionist Kiosk

Wall Mounted ALICE Receptionist

GIVE YOUR CORPORATE OR COMMERCIAL BUILDING A HIGH TECH UPGRADE WITH ALICE.

A VIRTUAL RECEPTIONIST THAT GREETES VISITORS WHEN THEY ENTER YOUR BUILDING AND NOTIFIES EMPLOYEES OR TENANTS OF THEIR ARRIVAL.

KEY FEATURES FOR LARGE CORPORATIONS

ALICE Receptionist helps large corporations manage their corporate buildings in a way that's never been possible before.

Using the ALICE system, a single employee can now manage many different buildings or building entrances from his/her desk.

By simply placing an ALICE unit at each building entrance, a single employee can communicate using 2-way video with visitors at each of those entrances.

ALICE can operate in Self-Service mode or in Operator mode for a full-service experience.

ALICE™ Receptionist

Choose the operating mode that works best for your corporate or commercial building:

Self- Service Mode

Self-Service mode allows a visitor to select who they wish to speak with

- ALICE uses motion detection to greet visitors with pre-recorded welcome video message
- Touch Screen employee or tenant directory allows visitors to easily find and connect with employees by simply touching the screen.

Operator Mode

Operator mode immediately connects the visitor with a designated employee or group of employees

- Company designates one or more employees (Operators) to manage lobby
- ALICE uses motion detection to detect when a visitor has arrived and immediately notifies designated Operator(s)
- The first Operator to accept the call is connected with the Visitor

Other FEATURES

- Customizable video messages
- Customizable graphics (branding)
- VoIP phone system integration
- User presence settings
- On-line content management

BENEFITS

- Improved security
- Improved visitor experience
- Consistent experience for visitors
- Year over year cost savings
- Low cost of ownership
