

REVAULT

WORLD'S FIRST WEARABLE PRIVATE CLOUD

**STORE YOUR FILES ON REVAULT AND SECURELY
ACCESS THEM. FROM ANY DEVICE, AT THE SPEED
OF A LOCAL NETWORK**

ReVault is a new type of storage that gives you the smartness and convenience of the public cloud, and the security of local storage. Store your files locally on ReVault and always access them at the speed of a local network. ReVault connects to your devices using WiFi and Bluetooth.

You can setup your ReVault to auto-backup and auto-synchronize your files across your devices. ReVault is wearable so that you can easily carry your files wherever you go at all times.

PRODUCT DATA SHEET

Dimensions

Case	44mm L × 37mm W × 7.5mm T
	1.73in L × 1.46in W × 0.3in T
Band	22mm wide (0,866in wide)

Wireless connectivity

Bluetooth	4.0 LTE
WiFi	b/g/n

Memory

32GB or 128GB

Battery charging

Wireless (Inductive) charging Qi-standard

Display

1.54 inch, 240 × 240 pixels, 262K RGB color display

LED backlight

Gorilla Glass 3

Sensors

3D accelerometer

Power and Battery

Lithium-ion polymer battery

3 days normal use

Languages

English, French, Spanish, Swedish

Compatible with OS

Android, IOS, Windows, Mac OS X, Linux

Data security

2 factor authentication

AES-256 encryption

Water & environmental requirement

30 meter water resistance

Relative humidity: 5% to 95% noncondensing

Maximum operating altitude: 10,000 feet (3,000m)

Materials

Watch case: Stainless steel grade 316L
