**Android Smartphone or Tablet**

To access Trevecca’s secure wireless, you must be an employee or registered student with an active TNU network account. The following instructions will work on most Android devices. If you encounter problems, please contact the ITS HelpDesk for assistance.

1. Click on **Settings**.
2. Go into your **Wi-Fi Settings**.
3. Click on **Trevecca-Unplugged-Secure**.
4. Depending on your version of Android OS, you may have to manually configure settings.
5. Ensure the following is configured:
   1. **EAP Method**: PEAP
   2. **Phase 2 Authentication**: MSCHAPV2
6. In the **Identity** field, type your **TNU Username**. Skip Anonymous Identity.
7. In the **Password** field, type in your **TNU Password**.
8. Click **Connect**.
9. To ensure you continue to connect to the secure wireless if you go off campus and come back, we must forget the unsecure wireless.
10. Click on **Trevecca-Unplugged** (unsecure) and click **Forget**.
