

For plastic containers

# IBC SCREW CAPS

Tri-Sure® IBC screwcaps are the most cost effective closure system designed for high level UN applications on IBC packaging. Our IBC screwcaps are designed for optimal sealing performance.

**Tri-Sure**®  
MORE THAN CLOSURES

Tri-Sure® IBC screwcaps are available in the standard diameter 160 and 240 mm size corresponding to the ISO norm 15867:2003 and global market demands.

Products are made of high density polyethylene. The combination of the black masterbatch with the standard EPDM washers produces a lid compliant with several food regulations.

This new design has been developed to fit perfectly with our CDS1 (Closed Dispensing System).

- The extractor is completely protected by the top ribs.
- Easier connection with CDS®1 coupler due to increased recessed center area.
- Separate venting device to fit different vent inserts.
- 6 external nicks instead of 12 to match with existing spanner types in the market.

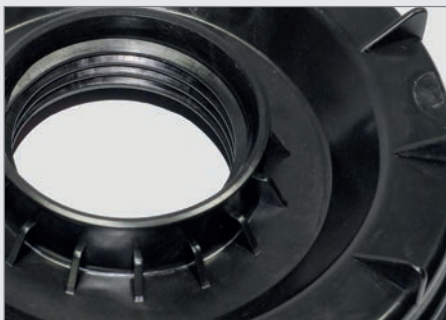

#### Options

- Several colors are available (minimum order quantity).
- Our new IBC screwcap with 56x4 central hole is available with micro porous venting system insert.
- Various types of standard washers (EPDM, Viton) are available.
- G2-ISO228, BCS 56x4 and BCS 70x6 central hole available on both sizes.
- The product can be supplied with or without top ribs.

#### Advantages

- ✓ IBC screwcap central hole with 56x4 opening is designed for 100% compatibility with CDS® Closed Dispense system.
- ✓ In combination with the Tri-Sure® Push-Lock™ compatible Plasti-plugs™, Push-Lock™ caps can be used.
- ✓ Tamper evident protection by using metal Tab-Seal® cap.
- ✓ Light, robust & reliable for a cost effective sealing solution.
- ✓ Compliant with food regulations.
- ✓ Consistent design for automatic filling line application.
- ✓ UV resistant.

A specific new design developed on 160 mm IBC screwcaps has been introduced in order to get the best compliance with our 56x4 Plasti-plug and corresponding Push-Lock™ caps. The Push-Lock™ and metal Tab-Seal® caps are easy to apply, easy to remove and completely protected by the IBC screwcap specific protective ribs.
