864	Notes:																	
865																		
866	7/7/10 - VERY DRY!!! Plants watered weekly																	
867	10/7/10 - Lots of weed pressure. Difficult to measure some of the plants																	
868	11/10/10 - Significant weed pressure and tall grass																	
869	3/21/2011 - Princep & Surflan applied to all																	
870	4/11/2011 - Height change in <i>Viburnum prunifolium</i> may be due to ability to take a better measure due to lack of weed pressure
