1.04D(5) Two Team Leagues. If any Adult Division Age Group consists of only two teams in a level of play, each team must maintain its roster with a minimum of 40 percent of its players at the designated NTRP level of play. A Section may increase the required minimum percentage. The Adult Division 55 & Over Age Group that uses combined NTRP rating levels will not be required to comply with this Regulation.

As such, the specific criteria are not needed in these regulations.

6. 2.030 Unforeseen Circumstances. Should any situation occur, which could potentially result in invalid matches or the postponement, rescheduling, or cancellation of a National Championship, a committee composed of the Tournament Director, National staff and National League Committee member(s) will determine the best course of action. This may include, but not be limited to, changes to the format, number of matches, and scoring. In certain extreme situations, National Co-Champions may be awarded. Sections may add additional language to their regulations or Championship Procedures to cover similar unforeseen circumstances.

Section Regulations

In addition to, and as allowed by USTA National League Regulations, the USTA Southwest Section has adopted the following SWS League Regulations, for all league matches played in the Southwest Section.

- Teams/Players participating in championships and local leagues should be familiar with USTA National, Southwest Section and Local League Regulations.
- All League matches shall be the best of two tie-break sets with a match tie break in lieu of the third set. The Coman Tiebreak rotation will be used in all tiebreaks. Use of any other match scoring method in a local league must be approved by the Section League Manager in advance of the start date of the league.
- When a team or teams are short of players and to avoid invalid matches, permission is given for teams to adjust line-ups right until match time to utilize the most players available.

Captain's Responsibilities

National Regulation (NR) 1.04B(5) requires that each team shall appoint a team captain to handle administrative affairs and to represent the team in USTA League matters. In addition, USTA Southwest describes the Captain's duties as:

- The Captain, or their designee should make themselves familiar with the league regulations, and must be present at all team matches to oversee team conduct and management. These duties include but are not limited to:
 - filling out and exchanging scorecard
 - recording scores at completion of matches and entering or confirming scores in TennisLink.
- Each Captain must declare to the Local League Coordinator in advance of the start of the season the court surface their team will play on for home team matches. All matches for that league season must be played on the surface declared for home matches, unless agreed upon by both captains at least 24 hours prior to the start of the match.

National Tennis Rating Program (NTRP) Ratings

Participation in USTA Leagues - All players registering for a USTA League team must enter with a valid NTRP Rating or by completing the Self Rate Questionnaire in compliance with USTA National League Regulations.

- The Section strongly encourages players to participate at their current NTRP level to ensure competitive match play.
- Players “playing up” are advised that by doing so, their NTRP year-end rating and those of their opponents may be inappropriately affected.

NR 2.03A(3)b - Sections shall have the option to require, for eligibility to progress to championship level competition below National Championships, Self-Rated and Valid Computer Rated Appealed players to play up to four matches, on the same team at the same NTRP level in the same Age Group during its local league season and is otherwise eligible, with no defaults counting.

The Southwest Section DOES exercise this option and requires all Self-Rated and Computer Rated Appealed players to play in 3 matches, on the same team, at the same level, to be eligible to advance to any District or Section Championships, (this includes any post local league season play including Flight Play-offs).

- Player(s) with Computer (C) ratings during Local League play who are moved up in Year End Ratings (YERs) but granted an automatic NTRP Appeal (A) rating at their previous NTRP level may progress to championship level competition below National Championships based on the eligibility requirements for Computer Rated Players. All other (A) rated players are subject to the eligibility requirements of the Southwest Sectional Regulations for advancement to championship level competition below National Championships.
- Player(s) with Computer (C) ratings during Local League play whose (C) rating expires and do not generate a Year End Rating (YER) prior to championship level competition below National Championships are required to Self-Rate and are subject to the eligibility requirements of the Southwest Sectional Regulations for Computer (C) Rated players, as long as they do not reach the “Clearly Above Rating Level” and are disqualified.

NTRP Self-Rate Dynamic Disqualification - Self-Rated players may be disqualified from playing at their registered skill level if their dynamic NTRP rating exceeds the level established by the national NTRP Committee (the strike level) three times during the championship year.

NTRP Dynamic Disqualification During Local League Competition - Self-Rated players promoted as a result of the NTRP Dynamic Disqualification will immediately be required to participate at their new NTRP level in all USTA League Programs and NTRP Tournaments.

NTRP Ratings (Continued)

Local League NTRP Dynamic Disqualification NR 2.04B(1) Scoring Option

The Southwest Section will reverse the last match in which a Dynamically Disqualified player earned the third strike if that strike was in the level in which they were Disqualified. Any subsequent matches that were played after the third strike is generated, at the disqualified level will be deemed wins for the opposing player and team. Additionally, that player becomes ineligible for future play at that level for the remainder of the championship year and the succeeding championship year. Appeals are only considered when a data entry error occurs. Computer Rated Players are not subject to Dynamic Disqualification.

NTRP Disqualification (DQ) Notification:

DQ Reports are monitored by the Section League Manager daily, Monday through Friday, except holidays. Self-Rated players receiving a Dynamic Disqualification will be notified before their next scheduled match, except in the case of a Self-Rated player participating in multiple matches before scores are confirmed. Such players should be aware that they may be disqualified upon receiving a “Third Strike” at any time, and the possibility of multiple strikes exists when playing multiple matches.

Example 1 – A Self Rated Player participates in a league match on Saturday and receives his 3rd strike and plays again on Sunday. Both matches would be deemed wins for the opponents.

Example 2 – A player participating in matches on consecutive days generates a third strike on a match played on Tuesday evening, plays another match on Wednesday evening but scores for both matches are entered on Wednesday evening, both matches would be deemed wins for the opponents.

Championship NTRP Dynamic Disqualification Procedures NR 2.04B(2) - For all District and Sectional Championships, the Southwest Section will generate Dynamic Calculations following the conclusion of the championship and disqualify those players who meet the criteria for the NTRP Dynamic Disqualification.

- All points earned, and matches played by the Dynamically Disqualified (DQ) players at Championship will stand.
- DQ player(s) ratings would be changed immediately. Those players may only compete in the higher level in any other Adult or Mixed Leagues for the remainder of the season as well as the next championship year.
