2.03J PROCEDURES IN THE EVENT OF A TIE

In the event of a tie between two or more teams in a flight, the tie shall be broken by the first of the following procedures that breaks the tie:

In the round robin format, the team who wins the most games is the winner. If two teams are tied, then the winner of their head to-head match is the winner. If three or more teams are tied, the following steps will be used in the order listed to break all ties. These steps are:

1. Head to head results
2. If teams remain tied, use the Stats and Standings report from TennisLink using the order below to break the tie:
 - a. Team wins
 - b. Individual wins
 - c. Sets won

If the Referee has applied all the steps and a tie still cannot be broken, the Referee shall use a random drawing among the remaining tied teams to determine their order of finish.

Tiebreak played in lieu of deciding final set counts as both one set and one game for the purpose of determining the order of finish. If the players inadvertently play out the third set or any portion thereof, it will still count as only one set and one game.

2.03J (1) PLAYOFF PROCEDURE

When two teams are tied in games during single elimination, the teams' coach/manager will designate a girl and boy to play a mixed doubles match tiebreak to determine the winner.

2.03K INDIVIDUAL DEFAULTS

An individual default occurs when a player fails to appear on time, or is defaulted by a tournament official for misconduct.

2.03L PROCEDURES IN THE EVENT OF A DEFAULT

When a team presents a scorecard reflecting a default, the opposing team will be notified and extended the opportunity of adjusting their line-up.

2.03M SCORING OF INDIVIDUAL DEFAULTS

The defaults described in 2.03K will be scored in accordance with the format in TennisLink Team Tennis. In the event of a default by both opposing players, neither team receives credit for that match win or the games.

2.03N TEAM DEFAULTS

2.03N (1) PRIOR TO THE START OF A CHAMPIONSHIP EVENT

A team must have a minimum of six (6) eligible players, three (3) boys and three (3) girls, available at the start of the championship event to be eligible to receive credit for game wins. (See 2.01B). Should the team not have the required eligible players at the start of the event, the team may participate in the championship event but any and all team matches will be defaulted to the opposing team. (See 2.03O).

2.03N (2) The Tournament Director/Committee reserves the right to place penalties on the team coach(es)/manager(s).

2.03N (3) DURING A CHAMPIONSHIP EVENT

A team may default a maximum of two positions in a team match without defaulting the entire match. In such cases, the default(s) is/(are) dependent on the number and the gender of the defaulting players. Example: If a team is short a boy, the boy's singles must be defaulted. If a team is short a girl, then the girl's singles must be defaulted. A mixed doubles match may not be defaulted.

2.03O SCORING OF TEAM DEFAULTS

If a team defaults an entire team match for any reason during round robin play, then all matches of that team played or to be played shall be null and void. If all teams in contention for the championships have already played the defaulting team in good faith, the matches stand as played. Sanctions or Penalties may be imposed on said team.

2.03P RETIREMENT

A retirement occurs when an individual match has started and a player or a doubles team is unable to continue due to injury, loss of condition, or emergency. In case of a retirement, the non-retiring player or doubles team shall be credited with such number of additional games as would have been won if the match was completed and the non-retiring player or doubles team won every subsequent game.

GENERAL CHARACTERISTICS OF NTRP PLAYING LEVELS

- 1.0** Player is just starting to play tennis.
- 1.5** Player has limited experience and is working primarily on getting the ball in play.
- Note to team coach/manager: Player needs to coordinate moving when hitting the ball. In fact, player is still concentrating on getting the ball over the net from a stationary position. Player is learning to serve and keep score.
- 2.0** Player lacks court experience and his/her strokes need developing. Player is familiar with the basic positions for singles and doubles play.
- Note to team coach/manager: Player is now beginning to coordinate footwork but is not consistent in hitting the ball over the net. Player can serve to some degree, understands scoring as well as correct positions for serving and receiving, and has limited success with volleys.
- 2.5** Player is learning to judge where the ball is going, although court coverage is limited. Player can sustain a short rally of slow pace with other players of the same ability.
- Note to team coach/manager: Player can keep score unassisted, can call own lines, can serve overhand from the baseline and has an understanding of the basic rules.
- 3.0** Player is fairly consistent when hitting medium-paced shots but is not comfortable with all strokes and lacks execution when trying for directional control, depth or power. The most common doubles formation is one-up, one-back.
- Note to team coach/manager: Player is improving court coverage and can sustain a rally and serve with consistency. On ground strokes, player needs to improve control of height, depth, direction and speed.
- 3.5** Player has achieved improved stroke dependability with directional control on moderate shots, but needs to develop depth and variety. Player exhibits more aggressive net play, improved court coverage and is developing teamwork in doubles.
- Note to team coach/manager: Player is starting to recognize opportunities to attack short balls by coming to net. Player is developing more spin and power on the serve and seldom double faults.
- 4.0** Player has dependable strokes, including directional control and depth on both forehand and backhand sides on moderate-paced shots. Player can use lobs, overheads, approach shots and volleys with some success and occasionally forces errors when serving. Rallies may be lost due to impatience. Teamwork in doubles is evident.
- Note to team coach/manager: Player has added variety in shot selection by using lobs, overheads, volleys and approach shots with some success. Player can develop a game plan.

GENERAL CHARACTERISTICS OF NTRP PLAYING LEVELS

- 4.5** Player has developed use of power and spin and can handle pace. Player has sound footwork, can control depth of shots and attempts to vary his/her game plan according to the opponent. Player can hit first serves with power and accuracy and place the second serve. Player tends to over-hit on difficult shots. Aggressive net play is common in doubles.
- Note to team coach/manager: Player is developing an offensive weapon.
- 5.0** Player has good shot anticipation and frequently has an outstanding shot or attribute around which a game may be structured. Player can regularly hit winners or force errors off short balls and can put away volleys. Player can successfully execute lobs, drop shots, half volleys and overhead smashes, and has good depth and spin on most second serves.
- Note to team coach/manager: Player is match-wise and uses shots that have a high percentage of success in both singles and doubles.
- 5.5** Player has mastered power and/or consistency as a major weapon. Player can vary strategies and styles of play in a competitive situation and hit dependable shots in a stress situation. Player has had intensive training for national tournament competition at the junior and collegiate levels and has obtained a sectional and/or national ranking.
- 6.0 to 7.0** Player has had intensive training for national tournament competition at the junior and collegiate levels and has obtained a sectional and/or national ranking.
- 7.1** Player is a world-class player.

PLAYERS IN WHEELCHAIRS

Players in wheelchairs should use these same general characteristics to determine their NTRP skill level. The only differences are as follows:

- **Mobility:** While players in wheelchairs may have skills that would normally provide them with a certain rating, the mobility factor suggests that when competing against able-bodied players, they should participate at an NTRP skill level that provides for competitive rather than compatible play.
- **Serving ability:** Due to the nature of the player's injury or disability, a powerful serve may not be possible. In this case, it may be more realistic to self-rate below 3.5, as serve strength becomes key above this level.
- **Two-Bounce Rule:** Players in wheelchairs will receive two bounces while standing players will receive one bounce in integrated play.

NATIONAL TENNIS RATING PROGRAM (NTRP)

The National Tennis Rating Program (NTRP), which defines the characteristics of a player's levels, is the official system for determining the levels of competition for USTA Junior Team Tennis. Each Sectional Association will determine the appropriate use of their ranking system to distinguish between Intermediate and Advanced level for any players, across all age categories, who participate in sanctioned tournaments.

Players in USTA Junior Team Tennis rate in accordance with the NTRP guidelines. Factors such as a player's on-court performance, tennis background, and any additional information should be considered in the self-rating decision. When players are rating themselves and question at which level they should play, they should place themselves in the higher NTRP level of play.

Players who are good athletes or intend to spend a great deal of time taking lessons and practicing should be aware that their improvement may be significant enough to surpass their original self-rating by the time they reach the end of the local season or championship level.

If players anticipate their play level will be higher by the time of a championship event, they should enter at a higher level of play at the beginning of the local team season to ensure eligibility.

To place yourself: Begin with 1.0. Read all categories carefully and then decide which one best describes your present ability level. Be certain that you qualify on all points of all preceding levels as well as those in the level you choose. When rating yourself, assume you are playing against a player of the same gender and the same ability.

CODE OF CONDUCT

1. The highest level of sportsmanship is expected from every player! An understanding of and a commitment to the points below are part of your responsibility as a player in a USTA tournament. Violators of this code or its spirit are subject to disciplinary action.
2. Once you have entered a tournament, honor your commitment to play. Exceptions should occur only in cases of serious illness, injury or personal emergency.
3. From the beginning of the match, play must be continuous. Attempts to stall or to extend rest periods for the purpose of recovering from a loss of physical condition (such as cramps or shortness of breath) are illegal.
4. Intentional distractions that interfere with your opponent's concentration or effort to play the ball are against the rules.
5. Spectators—including parents, friends and coaches—are welcome to watch and enjoy matches. Their role, however, is clearly restricted to that of passive observer with no involvement of any kind during the match.
6. Players are expected to put forth a full and honest effort regardless of the score or expected outcome.
7. Players are expected to maintain full control over their emotions and behavior throughout the match. If you begin to lose your composure during play, try the following: Take several deep breaths, exhale as slowly as possible, and feel your muscles relax. Concentrate on your own game and behavior while ignoring distractions from your opponent or surroundings. Be your own best friend—enjoy your good shots and forget the poor ones.
