USTA Statement on Suspension of Events

Due to the heightened concerns surrounding the COVID-19 virus, effective immediately the USTA will suspend all USTA sanctioned products and events, including Adult and Junior Tournaments, League Tennis, Junior Team Tennis, USTA Schools programs, Tennis on Campus, Wheelchair Events and USTA Pro Circuit Events. The health and safety of all players, staff, fans and volunteers are the foremost concern. This suspension is in effect through April 20. The USTA's goal will be to reschedule events where possible following this suspension period. Additionally, recognizing the evolving and fast-changing nature of this situation, the USTA will continue to monitor and assess conditions to make future determinations about events and activities taking place after April 20.

The USTA Billie Jean King National Tennis Center in Flushing Meadows, NY and the USTA National Campus, in the Lake Nona area of Orlando, FL will remain open to the general public for play and instructional opportunities. However, all group activities will be limited in the number of participants. Any patron who wishes to cancel participation in a scheduled activity should contact the specific location for refund information. Additionally, the fitness facilities, showers and food service at both facilities will be closed. These policies will be in effect pending additional guidance or directives from each local governmental agency and the CDC.
