

## 8 and Under: Red Ball Tennis

Court Size	Racquet	Ball	Net Height
36' x 18'	up to 23"	A red foam or red low compression felt ball moves slower, bounces lower and travels less distance.	2' 9"

For children 8 and under, the size of the court is 36' x 18'. The setup divides a standard-sized court into several smaller courts, using the standard-sized court's doubles sidelines as baselines. Racquets are up to 23 inches in length so that every child can easily handle the equipment. The ball, a red foam or low compression felt ball, is lightweight, bounces lower and travels through the air slower. The net height is 2'9", making it easier for each child to rally over the net.
