

PLAY LEVEL GUIDELINES AND RANKING LISTS

DESCRIPTION OF PLAY LEVELS:

We rely on the integrity of the coaches and program administrators to place players in the appropriate level to the best of their ability. Below are general descriptions of the different play levels and rules to guide you in placing your players correctly so players have as competitive of matches as possible to maximize skill development and enjoyment.

Novice – This player is new to the game of tennis or has been playing for less than two years. They are just learning to play and judge where the ball is going. They enjoy tennis as a recreational sport and have very little or no match play experience. Tournament players or players with high school varsity experience should not be playing at the novice level.

Intermediate – Generally, this player is fairly consistent when hitting medium paced shots, but is not comfortable with all strokes and lacks execution when trying for directional control, depth, or power. Player is improving court coverage and can sustain a rally and serve with consistency. On ground strokes, player needs to improve control of height, depth, direction, and speed. They typically have match play experience, especially at the 18 and under level.

Advanced (3.5 and above) – Generally, players at this level are mid-upper varsity level players on a high school team, or in the case of younger players, striving to play at this level. They have achieved improved stroke dependability with directional control on moderate shots. Player can use lobs, overheads, approach shots, and volleys with some success and occasionally forces errors when serving. They exhibit more aggressive net play, have improved court coverage, and are developing teamwork in doubles. Player is starting to recognize opportunities to attack short balls by coming to net. Player is developing more spin and power on the serve and seldom double-faults.

REGULATIONS

1. The USTA Northern junior tournament standings lists are used to set play level benchmarks. Players who meet the benchmarks stated below as of the first standings list published in April 2013, **MAY NOT** play in the intermediate division.
 - **For play on a 12 and under Jr. Team Tennis team**, players ranked in the top 60 in 12s MAY NOT play in the Intermediate division.
 - **For play on a 14 and under Jr. Team Tennis team**, players ranked in the top 70 in 14s or in the top 20 in 12s MAY NOT play in the Intermediate division.
 - **For play on an 18 and under Jr. Team Tennis team**, players ranked in the top 70 in 18s, top 50 in 16s, or top 40 in 14s MAY NOT play in the Intermediate division.
2. If a player is playing up in sanctioned USTA Northern junior tournaments and has a ranking that would prohibit him/her from participating on an intermediate team in that older age division, he/she is not eligible to play intermediate in any lower age division as well.
3. Minnesota: Any player who advances to the individual high school state tennis tournament in Class AA, or wins a match at the individual state tournament in Class A during a previous school season, **MAY NOT** play in the Intermediate Division. This includes singles and doubles.
4. Teams that win the Section Championship at the Intermediate level must either move up to the Advanced level as a team or disperse to form new teams at the same level for the next Championship year. The new team(s) may have no more than three (3) players (one boy and two girls or two boys and one girl) who were on the Section Championship roster. The 14 and under Intermediate Section Championship team may also remain intact, if they move up to the 18 and under Intermediate level. Players wishing to stay at the intermediate level must meet the criteria of an intermediate player and be in compliance with all regulations.

5. If a player has ever represented USTA Northern at a National Zonals competition, Boys or Girls 16s Intersectionals competition, and/or at the Boys or Girls National 18s team championships, they **MUST** play in the advanced division.
6. If a player was ranked at a level that would exclude them from playing intermediate, but dropped off that ranking list due to aging up after January 7, 2013, the regulation still applies to them and they **MUST** play in the advanced division.
7. During a previous season, if a player participated on an advanced team in their age division and had a winning record at the Section Championships, they **MUST** continue to play Advanced in that age division during all subsequent seasons.

2.01G (5)d National Ranking: Players with a national ranking, in any age division and determined at a specified time of the year, must enter at the advanced level (NTRP 3.5 and above) at any age division. **Note:** Annually, the USTA ranks players in the Boys' and Girls' 18, 16, 14, and 12 divisions. The final rankings for a junior age division shall include all players who have accumulated at least 200 points in the division. Only points earned in the age division will count toward ranking in that division.

Additional considerations to be included when determining if advanced is the appropriate level for a player:

- Has your player ever played a player on the lists included and if so, was it competitive?
- Has your player won the majority of their matches at the intermediate level in that age division during a previous Jr. Team Tennis season?
- Is your player excluded from playing at the intermediate level in another section?
- During a previous season, has your player participated on an advanced team and been competitive? This should not be determined just by record. A player could have a losing record and still have been competitive in those matches.

Due to the following aging up rule, the players listed below **MAY NOT** participate on a 14 and Under Intermediate Jr. Team Tennis team.

*“If a player was ranked at a level that would exclude them from playing intermediate, but dropped off that ranking list due to aging up after January 7, 2013, the regulation still applies to them and they **MUST** play in the advanced division.”*
