

It is with great sadness that we announce the passing of Sally Vesley. Sally started working with "T" is for Tennis over a year ago and completed her first season working with the children through the Head Start programs in North Portland in conjunction with our organization.

She was a compassionate, caring individual, and her face lit up when she was helping all of those children. Her love of tennis and children was perfect for her role in this program.

We were already discussing next season and all the ways we could enhance the program and she was full of great ideas to make it better. We thank her for all she gave to us in a very short time.

Our hearts and prayers go out to Sally's family and we will truly miss her.

The Greater Portland Tennis Council
