TEACH THE SPORT FOR LIFE

As a central part of thriving communities, teachers always look for new ways to bring subjects to life for students. With Net Generation, the USTA is committed to helping teachers introduce tennis in PE classes and connect to after-school programs.

Net Generation encourages kids to become engaged and challenge themselves with a new standard of play. The easy-to-follow curriculum helps teachers shape the game for individuals, so they can advance at their own pace. More importantly, it uses tennis as a pathway to personal development beyond the court.

RESOURCES AND PROGRAMS

Lesson plans under Net Generation were co-created by the USTA and SHAPE America, the leading body for setting physical education standards in the U.S. As a result, every activity within every single lesson meets SHAPE America National Standards and Grade Level Outcomes for K-12 Physical Education.

The easy-to-follow teaching tools make it easy to teach and play tennis in all school settings. Easily accessible manuals help teachers guide students at every stage of development.
