

“When my son started playing tennis sized right for age and ability, he started hitting better and better. It was great to watch his confidence soar.”

- Elizabeth C. of Connecticut, tennis mom

Try Tennis

Smaller courts, **shorter** racquets and balls that **bounce lower** – it’s easier and more **fun** for kids to **play tennis** with equipment sized right for them.

Get Out and Play

The focus is on **fun** and **gradual skill development** as kids continue to **elevate their game**.

Let The Play Begin

Team Play

If your children can serve, rally and keep score, then Team Tennis is a great way to keep improving while playing on a team with friends.

Play Days

Experience the thrill of competition without the pressure in quick matches with kids of similar age and skill. Gain experience and confidence while preparing for team play and tournaments.

Tournaments

There are USTA Junior Tournaments for all levels of play – entry-level, intermediate and advanced. Kids can take their game as far as they want it to go.
