

EnterpriseDB Beats Oracle. Again.

The Open Source Alternative to Oracle Takes Top Honors
at LinuxWorld for the Second Year in a Row

Recently, EnterpriseDB won LinuxWorld's "Best Database Solution" award for the second year in a row. Why? Because EnterpriseDB has raised the bar for open source database quality and value. And it runs existing Oracle applications virtually unchanged, saving companies millions of dollars.

Tired of paying too much to run your Oracle applications? Learn how EnterpriseDB can save your company more than 80% at:
