Bise it's an online search tool designed for Windows 7, Windows 8 and Windows 10. The application is designed to be fast and intuitive. It combines the power of Bing, Wikipedia, Dictionary, and Twitter for immediate searches. All you need to do is type a keyword or a phrase in the search bar, click Bise and get instant results for any search term you use. Using the bise search tool is easy and can save you time. Whether you are in the mood to do a bit of online shopping, look up a friend, or even get the latest news from the world, the Bise online search tool can make your search experience a lot easier. Key Features: - Simple UI and intuitive navigation - Bise automatically searches any term you type in the search bar, which can help you find that special product for your online shopping or a friend on Facebook - Bing, Wikipedia, Dictionary and Twitter search engines included - Trending and popular searches are shown at the top - Results are shown in a new tab in your default browser The chat service also allows users to make online videos, which is something interesting and new to most users of this type of chat application. The free chat rooms can be accessed via the website of the chat service, as well as the free mobile apps on iOS and Android devices. In addition to all the chat service's features, its users can also add friends, upload photos, and write texts, which are available via the online messaging service. Some of the chat service's other features include: - Automatic message sending to all your friends in the online chat service - Private chat rooms for every user - Full access to all your chat history - Auto pop up notifications when a new message is sent - Chat service available via a free mobile app for iOS and Android - Online video and photo uploading Recently, a new service has been added to the online chat service's roster of features, which is the ability to make phone calls to friends or family members who are online. To do this, all users need to have their phone numbers saved, as well as the recipients of the calls. Additionally, if a user has a call waiting feature on their mobile phone, this will also be able to be used with the online chat service's call-calling feature. The phone calling feature of the chat service is really interesting as it can be used to call a group of friends

The complete and original article can be found here. By: Courtney McCarthy Students of the 21st Century If you're a "regular" college student, there's no doubt that you've got your priorities all figured out. It's not that you don't appreciate the importance of saving money, or that you don't think highly of your studies. It's just that you've got a life to lead. And, as with everything else, there's not a whole lot of time for following your passions; so you've gotta pick and choose where you're going to invest your time. And, when it comes to college, there's no better place to start than here at Heidelberg, a place where you can think big and reach for the stars. So it's only natural to think that the next logical step for us 21st-century students is to explore what our campus has to offer. And while, yes, we've got a pretty awesome music department, we also have a thriving business school, an education-oriented law school, and a thriving Student Life Advisory Committee that's always working to provide students with everything they need to be a successful member of the Heidelberg community. And, don't get us wrong, we think that the faculty, the student population, and the campus itself are some of the most awesome places on earth. And, we love living in the center of the city, with its convenient locations and bustling nightlife, which really puts the "community" in Heidelberg. But, don't just take our word for it;

Recover deleted files from an HP drive The following guide is for those who have deleted files or folders on their hard drive using the Shift+Delete keys in Windows XP. However, you can also use it if you accidentally deleted files or folders on your hard drive. As explained in detail in the table above, you will have to delete the new file or folder first, then go to your Recycle Bin and empty it. Finally, you will have to save your current files to another location on your hard drive. If you do not know how to recover deleted files from an HP drive or you've tried everything possible to recover your deleted files or folders without success, you can try and use a drive-recovery software. Luckily, there are some free solutions that can help you recover deleted files or folders from an HP drive. If you want to try DriveRec, I suggest that you try it first, as it is one of the most widely used tools when it comes to recovering files and folders. Whether you are a casual home user or a business owner who likes to do their work at home, you need a productivity suite to be able to save time and work efficiently. Saving time when it comes to daily tasks such as writing emails, doing online shopping or even writing your next business plan is the primary reason that makes productivity software so important. But Microsoft Office and LibreOffice do more than just helping you work efficiently. They also help you manage your time efficiently, get organized and have fun while working.
