I decided to make this new version totally free, as i have thought there was no need for a separate fee to be paid. If you like to give the credits to me, you can download this new version free, and there are downloads (in Mega.nz) for the version 1.1.0 (10.3 MB) I developed for the whole community two weeks ago. In addition, the version 1.1.1 (7.3 MB) has been released today after fixing bugs. At the beginning of February 2020, a new version of gamecube gcm iso tools has been released for 11 february 2020, 0.8.2a. Version 0.8.1 has been released only for windows systems but i have decided to release it too for other systems, if you have a linux or a MAC system you can download it from here.
