only in a specific category or sub-category? A: The only thing that comes to my mind is using "Plugin hooks" to do this. But it's
always better to just go with "server side programming". function check_page(\$request) { \$category = get_queried_object();
\$page = get_page(\$request); \$post = get_post(); if(\$category->name == 'category1' || \$category->name == 'category2' ||
\$category->
