## **What's new in Elden Ring:**

**Will this game ever get an English version? (On another note, why would they make it so hard to make an English version? In some cases you need to go into the language options first and in some it's impossible to do that, in others they made no difference at all for the "blind version" even though it's not blind.) A: Apparently, the dev says... In the Vol 5 Nes Comicon web comic, they stated this is not planned currently in the games / Gens forum: How can anyone be surprised that this is a game made for Japan only? Why would it make much of sense to port a game to an alien tongue? It seems they took their opportunity to create this game and run with it. Also note, that NO MMORPG was planned for snes e-systems at that point in time. Atari only managed to get money after the Septembers' Q4 gaming results. TROY - At least 13 people were shot, mostly in their heads, within minutes late Tuesday night, police said. Police had received reports of up to nine shootings in the area of Pearl and Central streets in the city's westside, in the early hours of Tuesday. They found eight patients with seven gunshot wounds at the fieldhouse at Golisano Children's Hospital and several others in local hospitals, police said. Lt. Scott Smith of the Troy Police Department said "quite a number" of residents were being treated, but did not have exact numbers. He said one person was dead. Police continue to search for the suspect in several shootings in the area, Smith said. Earlier reports of multiple shootings appeared to be wrong. Police were reporting the time frame was around 2 a.m. to 8 a.m. Smith said he could not speak to the shootings specifically, nor could he share the suspect's description, as has been the case in many cities recently. As more details come out, watch WEAR for updates in this story. The shootings happened in the area of Pearl and Central streets. About 7:20 p.m. Monday, Smith was called to the area and found seven people with gunshot wounds. The closest hospital for non-life-threatening injuries was Golisano. At least one other shooting was reported Tuesday morning in the same area. Smith said officers were responding to that one shortly before 7 a.m**

Using a morphometric approach, we have shown recently that the contractile behaviour of the reproductive organs in female grey seals, which is related to the onset of heat-induced oestrus and ovulation, is associated with a generalised rise in the plasma concentrations of prolactin, luteinising hormone and oestrogens. In the present study, we have carried out an endocrine characterisation of the endocrine correlates of the smooth muscle contractile behaviour of the oviducts, the coelom and the uterus during the pre-implantation period
