Eden Ring is new fantasy action role playing game. it was developed by a self-proclaimed blockhead of a leader (this is a nickname), with the assistance of my ever present teacher and partner in crime, Mr Disgruntled, and myself. It has been a long time in the making, and a lot of blood, sweat and tears (much more than required) was shed in the process. Enjoy the game and review (or not) the work, it is all a matter of personal choice. The map: You and your allies have traveled to the hostile land of Eden Ring. You have arrived to the capital, Hope Falls, in search of a legendary weapon, the Flame of Eternity. However, before you leave the safety of Hope Falls, you need to complete your tour of the capital's many dungeons. In order to get the best reward for completing the dungeons, you need to explore all of them. You will find a long list of dungeons, and you can explore any dungeon you like at any time, according to your liking. A special thing to mention is that you can explore a dungeon that was made by a custom user, and they will get a special reward for it. The game itself is a collaboration of many different parts. You can explore dungeons, fight monsters, buy items, research new spells, and much more. The weapon: The Flame of Eternity was created a long time ago, but was lost in the past. If you find it, you will be able to take it to your nearest castle and become the lord
