Jan 17, It is being assured you that maangayar malar - chef damodaran recipes book in tamil may be used for personal. Biryani recipes in tamil free.Q: Advantages of using automatic pins on a breadboard instead of using the soldering iron? I am using an old breadboard and I think I am not going to use it anymore, so i put an LED and a microcontroller. So now, is there any good advantage of using the automatic pins of a breadboard over using the soldering iron to connect those components? A: The advantage of using automatic pin tools is that there is a limit on how many components you can put onto a breadboard. This means you can place your components in a way that you can solder them without breaking your breadboard. The soldering iron is versatile, but has a much higher power rating and will damage the components you're connecting. There are also other purposes for using automatic pin tools, such as being able to use smaller components.
