Dear Parents:

The school district will allow students to be transported to school sponsored activities by parents or students in private automobiles provided the volunteer drivers who transport such students meet the following conditions:

1. Written certification is provided that the volunteer driver has liability and "no-fault" coverage through the driver's personal automobile insurance policy with limits of at least \$100,000 per person, \$300,000 per accident for bodily injury, and \$500,000 per accident for property damage.
2. Written certification that the driver has a satisfactory driving record (no more than six points).

It is important for parents to realize that the school district is disclaiming any and all liability for accidents and is in no way accepting any responsibility for the volunteer drivers or passengers, nor is the school district providing any insurance coverage for them. Volunteer drivers may be held individually legally liable for any injuries to passengers or others.

Any volunteer parent or student who wishes to drive students to school sponsored activities must complete and return the attached forms to the student's teacher with your signature verifying that the parent or student meet the requirements.

Sincerely,

Mark J. Suchowski
Principal
