

All Sports Booster Club

The JICHS All Sports Athletic Booster Club was created to promote all the athletic programs of JICHS, increase community interest, recognize the achievements of team and individual athletes, and to assist the Athletic department, coaches and administrative staff.

We are a non-profit, fully recognized 501(c) (3) organization. Our fundraising efforts enable the club to fully support the purchases that help enhance all athletic teams at JICHS. Parent and community membership is the main source of our funds. We ask the parents every student athlete to become members. Parent membership and involvement is the key to a successful athletic club! This involvement consists of both volunteers and the financial support required to cultivate the development of our student athletes and maintain high quality athletic programs.

By becoming an active member of the JICHS All Sports Booster Club, you enhance our abilities to provide for all athletic teams, student athletes and coaching staff.

Please see the Membership form and online payment options on the JICHS athletic website.

Thank you for your support!
