

Ortho Now

Walk-in care for orthopaedic injuries at the cost of a clinic visit

Sometimes a bone, joint, ligament or muscle injury requires immediate attention and can't wait for the next available appointment. When a trip to the emergency department is more than you need, the Froedtert & the Medical College of Wisconsin health network offers Ortho Now – orthopaedic walk-in care that saves you time and money.

Conditions we treat

Our providers specialize in treating:

- Sprains and strains
- Sports injuries
- Foot and ankle injuries
- Knee injuries
- Shoulder injuries
- Dislocations
- Fractures

These conditions are not treated at Ortho Now:

- Chronic pain
- Non-orthopaedic problems
- Open wounds
- Severe fractures

(more information on reverse)

What to expect

At Ortho Now, you will be seen by a provider who specializes in orthopaedic care. Your injury will be assessed, a diagnosis will be provided and your injury will be treated. If necessary, X-rays will be ordered.

If your provider determines that a specialist is needed to best treat your condition, a referral will be expedited to one of our board-certified orthopaedic physicians.

Our staff will not prescribe refills for narcotic pain medication.

Walk in or call for an appointment convenient for you.
