

**When registering online:**

1. Parents and guardians access FeePay for activity/athletic registration.
2. If student does not have a current physical (within last 3 years) on file, the online registration program will notify you and block you from completing the registration. Bring in a copy of the student's physical form. Once the activities secretary enters the date of the physical in the system, it will release the block enabling you to complete the registration online.
3. If the student has a fine or fee, the program will block you with a hold. You will need to contact Kathy at **763-391-8717** regarding the fine/fee, and/or payment/return of the item required before the student is cleared allowing you to complete the online registration.

Click the green process button to complete registration. *Note: Even if you owe \$0.00 you still need to process the payment, once the payment is processed your student will be added to the activities roster.*

When registration is complete you will receive a confirmation number in **orange**. If you do not receive a confirmation number, registration was not completed properly.

Parents/ Guardians must create an account on <http://osseo.feepay.com/>. When creating your account you are first filling out your personal information as the parent/guardian. Once that is completed you may fill out information for your student and add their **School Issued District ID Number** to complete your account creation.
