

## STUDENT-ATHLETE TWO SPORT PARTICIPATION CONTRACT

# ATHLETICS

A student-athlete who wishes to participate in two sports during the same season must gain the approval of the athletic director prior to practicing with both sports.

The following criteria must be met before approval will be given:

- Approval from the parent or guardian.
- The student-athlete shows evidence of strong academic achievement that would not be compromised by participating in two sports in the same season.
- Both head coaches must agree the student-athlete would be capable of competing at a varsity level in each sport and would be able to have sufficient practice time for skill development.
- The student-athlete must decide on a primary sport that would take priority if schedule conflicts occur. Both head coaches must agree on the student-athlete's choice of primary sport.
- The head athletic trainer must be consulted to determine if any past or current injuries or conditions would make participation in two sports inadvisable.
- A contract outlining the above criteria must be signed by the parents, coaches, student-athlete and athletic director.

\_\_\_\_\_ will participate in \_\_\_\_\_  
Student-Athlete Sport/Event/Position

and \_\_\_\_\_ during the \_\_\_\_\_ sports season during the  
Sport/Event/Position Fall/Winter/Spring

\_\_\_\_\_ school year. \_\_\_\_\_ is the primary sport and will take  
Sport/Event/Position

priority if scheduling conflicts occur.
