Concussion Team Member Roles

After sustaining a concussion, it is not unusual to be scheduled with one or more of our Concussion Team members. You will be scheduled with therapy providers based on the symptoms you report. Below is a description of the main roles for each of our Concussion Team members:

Concussion Team Member Symptoms

Physical Therapist	Headaches / Neck pain / Orthopedic issues
Vestibular Physical Therapist	Dizziness / Balance issues
Occupational Therapist	Cognition / Return to work / Vision issues
Speech Therapist	Cognition / Return to school / Symptom management
Neuropsychologist	Mental health issues / Neuropsychological testing / Counseling
Social Worker	Community resources and referral information / Financial assistance
MD / Primary Care Provider (*Not on-site at STARS)	Medical management including pain and sleep / Medications / Additional referrals
