Protocol needed for patients traveling to Dr Michael Tischler for Implant and Bone Grafting at Tischler Dental's facility in New York's Hudson Valley.

Dear Doctor,

Your patient has chosen for dental implants and or grafting to be performed by Michael Tischler, DDS in Woodstock, NY. This patient is traveling a long distance and we will need your assistance in treatment planning this patient. We would like to make you an integral part of the team approach for treatment of this patient. It has been made clear to this patient that if he or she chooses, you are welcome to perform the restorative phase of this treatment. If you choose to do this, Dr. Tischler will speak with you and guide you through every step and offer any help that you may need. The implant system Dr. Tischler uses exclusively is Biohorizons, and it is very easy to work with. Your patient will pay you directly for the needed items below. Please call Dr. Michael Tischler with any questions.

Items needed for treatment planning. If items can be scanned and e mailed to mt@tischlerdental.com it would be best. The study models can be sent directly with the patients name.

Items needed to be sent to Dr. Tischler:

1. A current and thorough medical history including medication patient is taking, a blood pressure reading and pulse rate.
2. A recent digital panograph and digital full mouth series x rays
3. Recent study models that are on a simple hinge articulator.
4. Recent periodontal Probe readings on a perio charting form.
5. Good quality Intra Oral radiographs consisting of: a frontal view with patient closed, A right lateral view and left lateral view, a maxillary occlusal view, a mandibular occlusal view.

If you have any questions about this, please call Dr. Michael Tischler at 845-679-3706
