JOB SITE DELIVERY REQUEST FORM

FAX NUMBERS: (256) 354-7022 Customer Service
(256) 354-1855 Transportation

In order to better service your job site delivery needs, this form must be completed and signed by an authorized agent of the Wellborn Transportation department. This form must have a detailed map attached.

Listed below are the requirements for all job site deliveries.

1. Roadways must be paved.
2. No fire hydrants or utility poles near the roadway.
3. No low hanging electrical wires across the roadway.
4. No low hanging tree limbs.
5. Route must be accessible and legal for Wellborn equipment.
 - a. Bridge and underpass must have a 14' clearance.
 - b. Must have 30 ton weight allowance on all bridges.
 - c. Must be accessible for 9' wide and 75' long tractor trailer (no narrow turning radius).
6. Dealer must have someone on the job site to unload trailer.
7. Authorized signature from the dealership will be required for all deliveries.
8. Delivery will only be made to a single point at the job site.

Authorized Wellborn Transportation Agent

Wellborn Customer's Signature

The Wellborn driver will make the final decision about the route to the job site location. It is the Wellborn Customer's responsibility to ensure that the site is legal and accessible for all equipment. ALL fines and repair costs, where the above requirements are not met, are the Wellborn Customer's responsibility. If the job site delivery cannot be made due to the route, it is the Wellborn Customer's responsibility to find an alternate drop site in a reasonable time frame. There will be a \$100 minimum drop fee charge for this service. This drop fee charge is good for one trip to the job site.
