ABOUT THE SPACE

This beautiful rustic style kitchen brings all the comforts of classic design with all the functionality of a modern style. The River Rock upper cabinetry brings a warmth and lightness to balance the new Nightfall stain on the lower cabinets making the space feel larger without losing the kitchen's cozy feel. Having this beautiful island in Glacier gives another splash of brightness to this kitchen while adding valuable counterspace and storage options. Multiple beautiful door styles were used in this kitchen to bring it to life. The Amelia door style on the upper cabinetry pairs beautifully with the new River Rock finish, while the Hanover door style on the lower cabinets brings sophistication to this rustic kitchen. The transitional island end is a beautiful addition to any kitchen and brings this space together perfectly.

KITCHEN ISLAND

A kitchen island is a beautiful way to bring more counterspace and storage to a kitchen. Plus, you can't have a perfect rustic farmhouse kitchen without the perfect, classy kitchen island. Having a kitchen island has become a highly popular trend that is widely loved.

This gorgeous transitional island has all the classic elements this rustic kitchen needed. With 3 size options, the island can be tailored to fit any kitchen. This island comes equipped with amazing storage options that take an otherwise normal island and turn it into something extraordinary.

SPICE IT UP

Wellborn's Spice Storage Pullout makes keeping all the spices a kitchen needs organized easier than ever. It even comes in 4 different sizes to fit any kitchen's needs while keeping the cabinets looking amazing.

Wooden Spice Rack

The Tiered Spice Storage Shelf is an insert that goes inside the cabinet. This shelf allows for organization of spices while keeping everything in reach and in plain sight.

Spice Storage Pullout

The Wooden Spice Rack is another beautiful option for spice organization. This rack mounts onto the door of the cabinet, keeping all the shelving open for other items and giving a greater ease of access to the necessary spices.

FUNCTIONALITY

Cutlery Divider

As everyone knows, it's what's on the inside that counts and placing a Cutlery Divider into the top drawer is an exceptional example of this. This divider keeps all the cooking necessities and even the tea towels in perfect order.

Keeping everything where it's needed and easiest to access was a big factor into the creation of the Foil & Wrap Door Holder. Placing foil and wrap here keeps them from being tossed somewhere in a cabinet while maintaining shelf space.

Deep Divider

The Deep Divider is the perfect way to keep all the pots, colanders, strainers, and any other cookware beautifully organized and exactly where they are needed.

FUNCTIONALITY

Finding space for those items that don't really have a designated spot can be difficult. Wellborn Cabinet's Wall Message Center Cabinet is the perfect solution to this. Keep keys, cookbooks, grocery lists and more perfectly organized and in one place.

Three Drawer Corner Base Cabinet

Wellborn Cabinet's Three Drawer Corner Base Cabinet takes advantage of all the corner space that would otherwise be lost in a kitchen. Store tea towels, utensils, and any other kitchen necessities with ease.

Adding more depth to a space helps it feel bigger and more open. With the new Plain Contrasting Back option customers can add that depth easily by using the two color tones to make shelving seem deeper.

THE DETAILS

The mouldings used in this kitchen, like the Large Cove Crown Moulding, are a perfect mix of elegant and rustic giving this space a timeless look and feel. An excellent example of moulding's versatility is displayed here in the Countertop Edge Moulding Contemporary being used on the upper cabinetry. The Shiplap Wood Hood paired with the natural wood bottom makes this kitchen becomes something out of every farmhouse lover's dreams.
