

Modern Glam Kitchen

The inspiration for our modern glam kitchen was to create an inviting contemporary design that will appeal to many different demographics – from Baby Boomers fashioning their retirement home to Millennials remodeling or building their first home. This open floor plan provides function and simplifies any lifestyle and the modern technology is desirable because it is suitable for entertaining and is easy to keep clean with every item having a place.

Coordinating three different door styles from Wellborn Cabinet's Aspire Full Access Frameless Line, this kitchen brings the best of an at-home feel using the warmth of the colors while adding the luxury of modern features with a touch of flair. The gray in the Smokey Walnut finish of the Morristown door style is adorned with gold-toned hardware to coordinate with the sleek High Gloss Gold Midtown door style on the island. Above the stove, the Serenity metal door in Sand Gloss Glass completes this glamorous modern kitchen.

Warm tones in Smokey Walnut accentuate the High Gloss Gold and Sand Gloss Back Painted Glass doors. The kitchen is topped off with Large Laminate Flat Moulding to help the Matching End Panels on either end land flush with the ceiling. The ten feet high Tall and Wall Matching End Panels mimic the Morristown Regal Walnut doors for continuity. Wellborn Cabinet's Oven Cabinet with trimmable panel allows the oven to nicely fit in its space to bring your focus to the cabinetry not the appliance.

Single Oven Cabinet with Three Drawers

Located just above the oven, this space is customized with metal tray dividers. The dividers are U-shaped to help hold items in place. They can be placed prior to installation to be as wide or as narrow as needed to accommodate cutting boards, baking racks, or cooking sheets.

U-Shaped Metal Tray Divider

The three drawers under the oven offer easily accessible storage using metal drawer boxes. Matching metal Superior Wide Utensil Divider for storing pot and pan holders and other serving pieces can be found in the top drawer while directly below that, the Superior Deep Drawer Divider placed in the matching metal drawer creates a cleanly organized drawer.

Knurled hardware is a huge trend right now. Placed on the transitional Morristown doors, the gold hardware ties each element of the kitchen together.

Gold Hardware on Doors and Drawers

The Superior plate holder helps keeps your plates organized and is capable of holding up to twelve plates. It is also adaptable so that it can be positioned in various parts of the drawer. The soft close feature on every drawer helps keep everything in its proper place in the drawers and helps to reduce noise in the kitchen.

The hood vent above the stovetop on the back wall is hidden behind our Midtown door style in High Gloss Gold with Touch to Open Top Hinge cabinetry. When opened, there is access to the hood vent inside for hiding electrical, ventilation features, and even added storage. With the simple push of a button, it activates the slow self-closing feature for ease in the kitchen. Wall cabinets above the hood were increased to 18" deep to continue the flush look.

Vent-A-Hood Hood Vent

On either side of the hood vent cabinet door are two of our Push To Open Serenity Sand Gloss Back Painted Glass doors that coordinate well with the gray from the Smokey Walnut finish. Trimmed in gold, they hold our convenient Easy Access Dynamic Shelves with the pull-down system makes hard to reach items easier. The pull-down system is available in widths ranging from 21"-36" wide. Throughout the kitchen, we have placed LED lighting inside the finished interior of the cabinetry to aid in locating exactly what you need.

Easy Access Dynamic Shelving with Pull Down Handle

Surrounded by finished end panels for a flush design, both cabinets are Prep-for-Lighting for LED Strip Lighting. Each Serenity door is outfitted with Push to Open Technology. This prevents you from having to use hardware and provides a sleek finish to compliment the hood vent cover.

Aspire Midtown Door Style
Gola Hardware

The island features our Aspire Midtown doors and drawers with specialized Gola satin nickel hardware for ease of opening, these doors provide a soft close as well as eliminating the need for exterior pulls creating a polished elegant look. Encased by a trendy quartz waterfall countertop, the front-facing cabinetry has LED Strip Lighting around the edges of the cabinets as well as puck lighting installed on the top of the cabinets for displaying items.. Each front facing cabinet on the island includes clear glass shelving and comes with a matching finished interior.

LED Strip-Lighting at Base of Cabinet

Each drawer featured below is easy to maintain housing clean and modern all-metal full access drawer slides with matching metal dividers. Several of our dividers and organizers were utilized in different ways to ensure every item in the kitchen had a home. The sleek gray metal Superior Narrow Divider multi-tasks as both a serving utensil and gadget organizer. Our metal Superior Flatware Organizer stores your cutlery and other necessities with ease.

Superior Flatware Organizer

Next to the sink, our Midtown door style has been used to cover the smart dishwasher and create a streamlined look with Wellborn's Custom Appliance Door Panels. A Blank-Front is integrated into the top of the design to create a seamless flow across the base cabinets.

Dishwasher Panel Integrated Design with Blank-Front

A hidden surprise in this kitchen is the Push to Open wastebasket with dual trash cans and bonus storage for storing extra trash bags or recycling.

Push To Open Wastebasket Cabinet
with Cover

Beneath the sink, the Push to Open feature continues with Midtown doors. The gray drip tray protects the cabinet floor by providing a barrier between both cleaning supplies and potential leaks that may occur. The Superior Under-Sink Caddy Pull-Out simplifies reaching supplies and helps with organization. A finished interior is featured in this cabinet as well.

The interior of the cabinet has prep-for-lighting grooves in the sides of the cabinets providing a place for LED strip lighting. Interior lighting makes it easy to locate items that may be hard to find.
