

# Country Doctor

## Quarterly Newsletter

### July-September 2011

Hello to all of our wonderful pet loving friends. I want to take this opportunity to thank all of you for the past 33 years of support! The Country Doctor Veterinary Clinic has been recognized nationally for our achievements in patient compliance. What this means is that you are accepting our recommendations and following through with the treatments which we recommend for your pets. The pets are the real winners here and the credit goes to you and my staff. Why? Because the staff is communicating our message so well and you are the one on the home front as the primary care giver. The feel good part of this is that we know all of your pets are receiving the best care possible.

Thank you,

Dr. Curie

We are excited to announce the opening of the Geneva Veterinary Clinic LLC this August 2010. The Country Doctor Veterinary Clinic has been serving patients and clients since 1978 and we are still growing at an unprecedented rate almost 4 decades later. Dr Curie has identified Geneva as another growth market which is currently under served. So many people from the Geneva area have expressed the desire for our nationally recognized services in their neighborhood that we began the process of establishing another clinic there almost 2 years ago. The process has been a long and rewarding venture and our entire staff is excited about recreating the outstanding client service and patient care for which we are know for locally, and for which we have received national recognition. We are still uncertain of the exact opening date. We just received our phone number at the Geneva Clinic. You can reach the Geneva branch at 361-4363. Please stay tuned to the web site for up to the minute information.

Thanks for your many years of support!

Dr Curie

Please stop in the Country Doctor to congratulate Ashley and Leanne, they are both expecting their first baby during the upcoming holidays. We are very excited for them.

You may see some new faces at the Country Doctor as we are in the process of training new staff for the Geneva Clinic. Please make them feel welcome and stop in to say hi. Have a Great Summer!
