• The Youth and Innovation Committee has been meeting weekly to work on their Summer initiative: New Sounds of the Left Coast. Our website is live and currently accepting submissions from young local bands and musical artists. We have posters and a Facebook site promoting the event.
  - We are accepting online submissions through this Saturday, 4/26. 10 panelists from WMNF and the local music scene will be rating submissions on a 1-5 scale, and the top bands will be selected to play shows at either the Venture Compound (St Pete) or Skipper's Smokehouse. The shows will take place in May, and will feature 3-4 acts.
  - We are also holding a workshop at the station on Sunday, 4/27. The workshop will feature local promoters, music bloggers, and nationally touring artists, and will discuss what it takes to get your band out of the garage and onto the main stage. We have got 25 confirmed guests on our Facebook invite!
  - BAAMO was kind enough to chip in some funds to get us started, but we are still looking for a major sponsor to cover promotional materials and shows. Despite repeated requests, we still have not been able to get the project on WMNF’s website. New Sounds was originally envisioned not only as a way to reach more youth, but also as a vehicle to drive traffic to WMNF.org.

Appendix A – Station Manager’s Report
To: The Board of Directors, NBSF  
From: Sydney White, General Manager, WMNF-FM/HD  
Subject: Monthly Report for April 2014  
Date: April 19, 2014  

Revenues

The final numbers on the winter/spring membership drive is $245,308. The goal was to raise $245,000. As of 4/15 we have collected $620,725 in membership revenue – 58.5% of the total projection ($1,061,000.00) for FY14. The total number of members currently stands at 7,067.

Combined revenues from underwriting, concert calendar as of 4/18 was slightly more than $59,500. Car donation revenue adds another $13,000. Special events continue to struggle with a total expenditure of $38,733 for a ROI of $9,745 – 25.2%. Planning for Tropical Heatwave is in full gear and as of 4/18 we have sold approximately $20,000 of advance tickets – the best advance sales we have had in recent years. Heavy advertising for the festival kicks in this week and include ten electronic billboards strategically located around the tri-city area, local newspaper advertising and electronic adds in major college cities around Florida.

Programming

Over the next three months we will continue internal discussions with both Program and News Directors, regarding strategies and/or options for audience growth. We will integrate as much of the ideas generated at the retreat as possible - ahead of the forth coming Board driven strategic plan for growth.

Program evaluations continue this month – with the highest priority again placed on the programs that have not performed well over multiple membership drives.

Tropical Heatwave is scheduled for May 9 & 10 in multiple venues around Ybor city. One major structural change will be the combination of the El Pasaje and the Cuban Club as a single venue. The city permits have been granted and construction and upgrade is presently happening at the moment.

Engineering & Operations

Some of the engineering challenges that can be projected of 8-yearold facility that is in constant use are beginning to occur. Presently one of the controller cards for the Vista Max system (that move audio throughout the building) is out for repairs – the second one in four months (a new card cost approximately $6,500). As a result, one of the three live broadcast studios will be down until the card is repaired and reinstalled. The station went off air for five hours – 11PM to 4 AM on Sunday, April 13 to provide the engineers the opportunity to realign and adjust the audio chain between the studios and the transmitter.

In addition, we are having significant challenges with the delivery of audio from the studios to the transmitter site in Riverview. Currently we are delivering audio to the transmitter at levels that are close to the point where it cannot be retransmitted. I am told by the engineers that this is because of obstruction to the path of the signal between the station and the transmitter site. On one occasion we lost all signal to the transmitter for more than one hour. I have asked the engineers to build a back-up IP delivery path to the transmitter for emergency situation, and this week I was assured that this will be completed in the next two weeks.

In addition, I have also asked the engineers to look into bringing a tower crew to realign the dishes at both ends (at approximately $1600 cost). However, they informed me that the root of the problem may be the height of the tower on the station end and the overgrowth of trees in the delivery path. The attached e-mail from Operations describes the engineers’ assessment and proposed solution.
TBAE has proposed premier of *WMNF Live Music Showcase of TV* for Friday, May 23, 2014. They have also proposed a joint reception that would include Board, staff, volunteers and community partners of both organizations for Wednesday, May 21 at the Vinik Room in downtown Tampa.

**Other Station Activities**

We conducted additional interviews for the contract underwriting position. However, we have not yet made a decision on a final candidate.

As part of our agreement re the HCC lease of time on our HD4 channel, we have started providing training for selected groups of HCC students.

WMNF Mission Statement is our identity. We need to be true to who we are.
