

Experienced, Proven Advocates for Every Individual

Since 1999, ViaQuest has been improving the lives of all those we touch. We have a rich history of positive outcomes, made possible by our commitment to delivering the highest-quality, most comprehensive services within environments that are safe, comfortable and secure. We view ourselves as advocates for the people who put their trust in us. We're proud to be consistently certified as a top residential program in Ohio, and even more proud of the individuals whom we have helped to function independently and live their best possible lives.

Our vision: Find creative solutions to provide independence and change lives.

"I am so very proud of my son's accomplishments and the team that helps him to be successful."

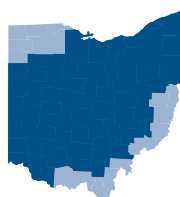

– Wendy M., Caregiver

Residential Services for Developmental Disabilities

Enabling you to live your
best life possible.

An Exceptional Circle of Care

We believe individuals with disabilities can – with the proper care and support – live comfortably and happily within their communities. It's a belief we make happen every day with ViaQuest Residential Services.

We surround individuals with our unique and time-tested Circle of Care approach to deliver the most comprehensive, holistic and highest-quality services. By working closely with individuals and their families, as well as county Boards of Developmental Disabilities, we customize support and care plans.

Our Circle of Care is supported by a commitment to communication, technology and innovation. We provide 24-hour access to our ViaQuest team, and our CareTracker system enables us to monitor individual progress in real time.

At ViaQuest, we're enriching people's lives through an optimum balance of health, safety, independence and choice.
