

My Colorful Summer

Summer vibes are in the air and we're celebrating all the vibrant colors that come with sunny days! Grab your favorite coloring supplies—and most importantly, your math skills—and let's start coloring! Flex those math muscles and solve the math problems listed in this packet—each problem has a color that goes with it. Find your answers on the picture and fill in the spaces with the matching color to bring the image to life. Come to Mathnasium with your finished coloring page for a cool prize!

Packet 2:

Baby
Blue

Harold has 48 books he needs to put away in boxes. If each box can hold 12 books, how many boxes does Harold need?

Green

A rose garden has 2 rows with 6 flowers in each row. A sunflower garden has 5 rows of 3 flowers in each row. How many more sunflowers are there than roses?
