### Saturday

7:30 - 8:00am	Registration
8:00 - 10:00am	Stephen Lankton, M.S.W., DAHB - "Using Tools of Intention" This workshop will teach seven positive techniques that actually make cognitive-experiential hypnosis extremely successful. Dysfunctional families fail to teach children how to use their thoughts and experiences to succeed. Consequently, clients learn dozens of self-defeating "problem-solving" habits and later present in our offices as adults with depression, anxiety, phobias, etc., created by those habits. The morning session includes exercises and lecture instructions regarding Will, Intention, Cure, and techniques of Chunking Logic, Magic Markers, and the pivotally important Self-Image Thinking training and the protocol for using Vivid Symbolic Imagery.
10:00am	Break
10:15-12:15pm	Morning Continued
12:15 - 12:30pm	Pick up lunch Available
12:30 - 1:30pm	Luncheon Presentation - Dr. Murgiel Schulte, Ph.D. -"Hypnotic Language"
1:30 - 4:45pm	The afternoon session continues with exercises and instructions for 3 methods of self-hypnosis and the protocols for Emanated Imagery, HeartJoy, Bio-Energy Balancing, Self-Nurturing Spiral, and Appreciation Lists.

### Sunday
