INSPIRING CHANGE IN COMMUNITIES

Since 2009, Robert Wood Johnson Foundation has provided funding to Y's in 20 states and 32 communities across the nation to collaborate with community and state-level leaders on efforts to ensure that healthy living is within reach for all people. In a recent sample of 14 of those states, leaders reported having influenced 2,844 state-level changes to support healthy living, impacting up to 152 million lives. In addition, the 32 community sites have influenced 3,198 changes. Below is a snapshot of those changes.

FRESH PRODUCE

236

changes improving **access to healthier foods** in the community

1,855

changes in **early childhood and afterschool programs** that improve **healthy food and beverage and physical activity options**
