About us...

DESIGNER AND MANUFACTURER OF AIR CONDITIONING, AND REFRIGERATION EQUIPMENT

TEV has two divisions, Quartz (Chilled Water Fan Coils, Chillers and Chilled Beams) and Marstair (air conditioning and refrigeration products) together they provide a comprehensive range of products.

TEV's pedigree goes back to 1971 and has now occupied the present site at Brighouse in West Yorkshire for 45 years. Today this facility employs more than 60 people and incorporates production space of 35,000 sq ft plus a further 6,000 sq ft of office space and development laboratories including three test rooms.

A forward-thinking manufacturer, TEV's product development continually focuses on the design of energy efficient products to incorporate the latest technological advances. This combined with excellent customer support and an established European base defines TEV as the air conditioning company for the next generation.

marstair

AIR CONDITIONING & REFRIGERATION PRODUCTS

- Packaged Condensing Units
Low Temperature Freezer
Medium Temperature Refrigeration
High Temperature Air Conditioning
Ducted
- Evaporators (DX Fan Coils)
Cassettes
Wall Mounted
Concealed Ducted
- Refrigeration
• Beer & Wine Cellar Cooling
• Close Control
• Marine and ATEX Systems
• Special Engineering
• In-house calibrated testing facilities

SPLIT SYSTEMS, BEER & WINE CELLAR COOLING, MARINE & ATEX SYSTEMS, REFRIGERATION, CLOSE CONTROL & SPECIAL ENGINEERING

Marstair has transformed itself into the “go to company” for those clients requiring products which provide a solution for more specialised & demanding air conditioning & refrigeration requirements.

In pursuit of both quality and care to the environment Marstair's products are designed & manufactured in accordance with EN9001 and EN14001, with some products registered on the Government's Energy Technology List.

Whatever your need, from low ambient to high ambient, Marstair aims to provide products that offer both efficient and cost effective solutions including: evaporators, condensers, low temperature air conditioning, marine, harsh environment, heat recovery, close control and refrigeration or any other area you have a cooling requirement.

JUST CALL US AND WE WILL FIND THE RIGHT SOLUTION FOR YOUR NEEDS.

Quartz

CHILLED WATER PRODUCTS

ALL OUR FAN COIL UNITS ARE AVAILABLE WITH:-

- Electric Boxes
- 2/4 Way Control Valves
- Low Pressure Hot Water Coils
- Spigots
- AC/DC Motors
- Condensate Pumps
- Return Air Plenum

AS STANDARD:-

- Discharge Plenum
- EU2 Filter
- EC/DC Fan Motors

A MARKET LEADER IN CHILLED WATER PRODUCTS DESIGNED TO MEET ALL APPLICATIONS.

With its dedicated fan coil lines Quartz's manufacturing plant is ideally located for national distribution. Boasting excellent equipment and procedures: customers are welcome to visit the production facility, as well as Quartz's thermal and acoustic testing facilities.

Achieved through close attention to market needs, design detail and material specification, Quartz relies on its strong positioning, industry experience and high volume

production to deliver quality at competitive prices.

Innovative designs and outstanding build quality mean that your project is in safe hands & because of this Quartz continues to be specified for many prestigious projects, where clients, architects and M&E consultants have chosen Quartz for the quality, performance and features that the products afford.

JUST CALL US AND WE WILL FIND THE RIGHT SOLUTION FOR YOUR NEEDS.

FULLY DRESSED CONDENSING UNITS

A comprehensive range of fully dressed condensing units with medium and low temperature products suitable for cold room, retail display cabinet applications as well as air-conditioning condensing units suitable for air handling units and R22 refrigerant replacement units.

CLOSE CONTROL

Small close control systems used for the storage of delicate/high value products and materials such as archive rooms, paintings, musical instruments and pre-processed plastic materials.

DUCTED CONDENSING UNITS

Ducted medium and high temperature condensing units for split system cooling where an externally mounted traditional condensing unit is not an option due to physical or planning restrictions.

CELLAR COOLING

The popular cellar cooling system ranges with the new value range of CX(E)A systems as well as the well-established traditional CX(E) systems suitable for the more challenging applications.

EVAPOURATORS

A full range of air-conditioning evaporators suitable for easy mix matching with remote packs or other condensing unit systems. These include cassettes, concealed ducted and wall mounted cased/chassis unit options.

LOW TEMPERATURE AIR CONDITIONING

A wide range of low temperature air-conditioning systems suitable for wine cellar coolers, food preparation areas, mortuaries, flower and chocolate storage applications.

DUCTED

Quartz has three ranges of ducted fan coils, the Sapphire, Amber and Amethyst, which meet today's stringent demands in terms of efficiency, sound levels, serviceability, compact dimensions, ease of application, installation and control.

CASSETTES

Our CWC 600 and CWC 875 define the standard for modern cassettes. High performance at low noise levels is to be expected but, in addition, the unique construction reduces installation time and labour.

WALL MOUNTS

We also offer one of the most extensive ranges of wall ceiling mounted chilled water fan coils. From its range of unique top discharge moulded polymer cased wall mounted unit to its versatile Topaz range that can be supplied with or without a case to be configured to fit at high or low level on a wall or horizontally on the ceiling.

CLOSE CONTROL

The CD3 Close Control System is suitable for computer rooms, laboratories and standards rooms where the close control of temperature and humidity is extremely important. The units are designed to give the specifier maximum flexibility, the engineer easy access for installation and maintenance and the end user ease of operation.
