

OUTDOOR PLAY EQUIPMENT & SAFETY SURFACES

COMMERCIAL BROCHURE

A photograph of three children playing on a wooden playground structure. A girl in a pink patterned top and a boy in a yellow t-shirt are in the foreground, both smiling and holding onto the structure. Another child is partially visible behind them. The background shows green foliage.

KEEPING CHILDREN **ACTIVE, HAPPY & HEALTHY** THROUGH OUTDOOR PLAY

ABOUT US ►

Established in 2004 and based in Herefordshire, Active Garden Ltd has worked hard to build a great reputation for quality, reliability and expertise within the playground industry.

Our main customers throughout the UK include schools, nurseries, public playgrounds, pubs, restaurants, hotels, farm shops and construction companies, among others.

As an independent playground supplier, we can source equipment from different manufacturers as well as build our own. This gives us the flexibility to mix and match products, to suit your design and budget.

We aim to have happy and safe children enjoying our playgrounds. So quality and attention to detail are extremely important to us. All of our products and surfaces comply with the relevant standards. All the timber items we sell use responsibly sourced FSC timber.

ETHOS & APPROACH ►

"Hi Marianela, I just wanted to thank you for the outstanding customer service and support all the way through the purchase and installation of our play equipment. You have been amazing! I cannot recommend your company enough - we are exceptionally pleased with both the swing and climbing frame - and most importantly the kids absolutely love them too! All the best, Niki."

Niki Quinn, Homes for Change Ltd

We see **every project**, no matter how big or small, as **an opportunity to get children to enjoy playing and learning outdoors**.

Whether it is a new piece of equipment, an extension to the existing playground, new/replacement surfacing or a complete play area, we have the **knowledge and experience to guide you through the process**. As an owner run business we work closely with you to achieve your goals for a new outdoor space.

How We Work

- 1 Initial contact: email, phone call or visit (if necessary)
- 2 Design and quotation
- 3 Source/manufacture and installation
- 4 Happy children!

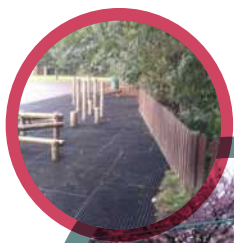

CLIMBING & ADVENTURE... ►

PROMOTES
STRENGTH, BALANCE &
COORDINATION

We offer:

- Wooden climbing frames
- Toddler towers
- Adventure trails
- Clamber stacks
- Swings
- Zip wires
- Climbing walls

TO SPARK IMAGINATION... ►

Pirate Ships

All at sea! Children's Nurseries favourite and great for KS1 play areas, can be built with different height platforms, incorporate climbing features and slides.

Castles

Combine turrets with castles to create endless fantasy playgrounds. Platform heights and combinations can vary with climbing features and slides added.

Tractors

This charming tractor with real tyres is built with a climbing wall and has the option of a slide or a fireman's pole. Platform height 60cm. Very popular with farm shops and the most urban of play areas!

Trains

All aboard! Great role play for younger children, they can also provide useful seating as well.

Play panels

Add some space adventure, mazes and even electronic panels, we supply a full range of interactive play panels.

Telescopes, steering wheels...

Turn existing climbing frames into ships, planes and look out towers or enhance the play value of new equipment with a full range of accessories.

TO COMPLETE THE PLAYGROUND...

BUILD, CREATE...
DEVELOP

We supply a full range of accessories and items to complete your playground. Fencing, sandpits and planters all enhance play value and can turn an area into a positive learning environment for all ages.

Often a project revolves around one major piece of equipment backed up with a number of other items to meet the objectives of the new play scheme. Whether to create a more sensory area using planters or to create a quiet area with shelters and benches. These items can be supplied individually or as part of a whole project. we are happy to advise you on all of the products we supply.

Sandpits

We can supply a whole range of sandpits with roofs or without in different shapes and sizes.

Springers

Diggers to dinosaurs, springers are a great addition for younger children.

Slides

Stainless steel, HDPE, fibre glass and tube slides, we can supply bespoke slides to fit your project.

Planters

Enhance sensory environment with planters large and small.

Outdoor classroom

Can be a classroom, stage or shelter, a covered outdoor area can be a great place for learning or performing

Seating

Children love to sit with their friends and parents can relax whilst keeping an eye on their little ones, playground seating is a popular addition.

WETPOUR

TESTIMONIAL

Hi Marianela, we absolutely love the garden, the children are loving the garden, the staff love the garden. We would like to say thank you so much for making our dreams come true!!

Emma, The Orchard Nursery

RUBBER GRASS MATS

PLAYGROUND MARKINGS

SURFACE SPECIALISTS

An all important aspect of creating a year round usable play space is to choose the best type of surface for the project.

We are well placed to advise, recommend and install the right surface for your project.

All of our installations are carried out to meet EN1177 specifications for critical fall heights using the best materials available.

We guarantee our installations for between 3 and 5 years, depending upon the product installed.

We offer the following surfaces:

» **Wetpour:** EPDM rubber granules in black or bright colours, bonded with resin. Can have intricate graphics to enhance the look of the play area.

» **Bonded rubber bark:** Recycled rubber mulch in natural colours, bonded with resin. Porous and textured gives good grip and keeps the area dry

for all year round play. Ideal for a more natural look.

» **Artificial grass:** A very popular product, keeps the playground soft, green and clean all year round.

» **Rubber grass mats:** an affordable solution, to protect against falls and keep the natural grass look.

» **Recycled rubber chippings:** recycled rubber with fun colours, used as a loose fill product. An upgrade from organic woodchip.

» **Rubber tiles:** Great for areas with flat and hard surfaces, creating a floating rubber floor.

» **Playground markings:** added to tarmac to give some extra colour and activities with car parks, targets, games, etc, to stimulate exploration, fitness and social interaction for children while enriching their outdoor play.

BONDED RUBBER MULCH

TESTIMONIAL

I love the grass, its brilliant. The boys were fab and worked really hard. Thanks!

RECYCLED RUBBER CHIPPINGS

SMALL SPACE TRANSFORMATION

Playgroup that looks after children from nursery to Primary school needed an all-weather play area to challenge all ages.

Thank you for your time and energy in helping us make improvements to our outside play area. We really appreciate your patience and suggestions and are thrilled with our new climbing frame and safety surface.

The new climbing frame will make a huge difference to the physical play that our children will be able to enjoy outdoors and the safety surface means that the climbing frame will be able to be used more than in previous years when the bark used to get too wet and dirty! Many thanks.

Karen B
Family Ministry Manager

BEFORE

DURING

AFTER

Nursery wanted to upgrade from loose rubber chippings and plastic play equipment to a clean and safe play area with a wooden toddler tower.

BEFORE

DURING

AFTER

Thank you so much for all the hard work that you put into our project. The play area and toddler tower look gorgeous!

Elaine, Little Leintwardine Nursery
