# What is your fondest *childhood* memory of playing?

Perhaps a smile appears when you remember the carefree feeling of being a child: playing, laughing, creativity, self-confidence and openness.

While playing, millions of brain connections are formed that lay the foundation for the rest of life.

That is why it is our mission to work with you worldwide to create environments where children can truly be themselves.

## *Classic* Collection

The IKC Classic Collection has been a proven success worldwide for many years. Thanks to its recognizable wooden frame, warm appearance, and cheerful colors, this collection fits effortlessly into any professional environment. From retail and hospitality to healthcare and public spaces, the Classic Collection stands for sustainable playtime fun with a timeless design.

# Classic collection

## Play modules

All play modules can be attached to the wall or with an IKC play system.

### ABACUS WHEEL

Use the spinning disc at the centre of the Abacus wheel to send the colourful numbered sliders on different paths. Then put them in numerical order from one to fifteen. Simple, but so much fun!

#### Article no.

**Green** PP00030

**White** PP00035

#### Dimensions

**HxWxD** 70 x 45 x 3 cm

**Weight** 5,8 KG

### APPLE PIE FACTORY

Create the most tasty Apple Pie! Move the bridge in the center of the play module up and down to mix the ingredients together and put everything in the correct place to create a tasty treat.

#### Article no.

**Green** PP00128

**White** PP00129

#### Dimensions

**HxWxD** 70 x 45 x 3 cm

**Weight** 5,9 KG

### CALCULATOR

Calculator is an educational wall game in which children learn arithmetic in a playful way. The play panel can be attached to the wall or to an IKC play system, so the game does not take up much space.

#### Article no.

**Green** PP00138

**White** PP00136

#### Dimensions

**HxWxD** 70 x 45 x 3 cm

**Weight** 5,5 KG

# Classic collection

## Play modules

All play modules can be attached to the wall or with an IKC play system.

### CRAZY MIRROR

Children have always been fascinated by their own reflection. The Crazy mirror gives this another dimension. Move and twist in front of the mirror and be amazed by the shape of your reflection. Children will get aware of their reflection in a funny way!

#### Article no.

**Green** PP00001

**White** PP00004

#### Dimensions

**HxWxD** 70 x 45 x 3 cm

**Weight** 3,2 KG

### DRESS CODE

Let's dress up! Rotate the blocks to match the head, body or legs and create a new character or change the way the character looks completely. For wall mounting a FM Frame is required.

#### Article no.

**Green** PP00404

**White** PP00405

#### Dimensions

**HxWxD** 70 x 45 x 3 cm

**Weight** 4,7 KG

### JUNGLE FEVER

Jungle Fever is very simple but equally as educational. Children can simply move the numbers and figures around and will learn to recognise the symbols and numbers and how to place them in the correct order.

#### Article no.

**Green** PP00380

**White** PP00384

#### Dimensions

**HxWxD** 70 x 45 x 3 cm

**Weight** 6,1 KG

# Classic collection

## Play modules

All play modules can be attached to the wall or with an IKC play system.

### MEMORY

Spin the blocks and try to find two of the same kind! Remember the place of the items and collect a pair. With this educational playmodule you can challenge yourself, but also a friend! For wall mounting a FM Frame is required.

#### Article no.

**Green** PP00108

**White** PP00109

#### Dimensions

**HxWxD** 70 x 45 x 3 cm

**Weight** 4,6 KG

### SORTING TREE

Develop your fine motor skills while sorting out the fruits from this tree. Turn the wheel to have access to every path and find the right basket.

#### Article no.

**Green** PP00026

**White** PP00027

#### Dimensions

**HxWxD** 70 x 45 x 3 cm

**Weight** 5,9 KG

### SQUARE LOGIC

Spin the wheel and take the challenge! Turn into the greatest strategist and slide every square into its correct place. Try it by yourself or let someone help you to solve this puzzle.

## Playground design

A safe play floor is the foundation of every children's play corner. IKC provides play floors that absorb impact, withstand intensive use and look great at the same time. From EPDM to vinyl and artificial grass: always tailored to your theme, space and corporate identity. Combine with wall games or play systems to create a complete play experience in one go.

# Playground design

## Various elements

### EPDM

The EPDM play floors are of high quality and offer children a safe surface to play on. The flooring is slip resistant and ensures that the impact of a fall is absorbed. According to the European safety standard, a shock-absorbent floor is mandatory if children can climb higher than 60 cm in your play corner.

EPDM is available in 16 different colours, countless colour combinations and a recently introduced glitter option.

**Article no.**  
RB-101

### EPDM GLITTER

Glitter EPDM is available in 16 different colours and countless colour combinations. Our shock-absorbent EPDM play floors are of high quality and offer children a safe surface to play on. The flooring is slip resistant and ensures that the impact of a fall is absorbed.

According to the European safety standard, a shock-absorbent floor is mandatory if children can climb higher than 60 cm in your play corner.

**Article no.**  
RB-105

### EPDM ELEMENTS

The EPDM is constructed from small rubber granules, making it possible to incorporate figures into the floor. A few examples of the standard EPDM elements we offer are fish, flowers, water lilies and stepping stones.

To stimulate children to move more and to add extra play value to your EPDM floor, we recommend also including the Hopscotch or 3D elements like Jumping hills to the play floor.

## Various elements

### EPDM SLOPE

The EPDM Slope is constructed from small rubber granules, making it possible to incorporate 3D elements into the floor. The EPDM Slope stimulates children to move by climbing on and sliding off time after time.

We offer all kinds of 3D elements to add play value to your EPDM floor, such as Jumping hills and a Tree stump.

**Article no.**  
RB00100

### EPDM HOPSCOTCH

The EPDM is constructed from small rubber granules, making it possible to incorporate all kinds of figures and elements into the floor. A popular element to add to your play floor is the Hopscotch. This allows children to move around more by jumping over the numbers.

To add extra play value, it's also possible to enrich your play floor with other elements like fish, flowers and stepping stones.

**Article no.**  
RB00007

### EPDM JUMPING HILLS

The EPDM is constructed from small rubber granules, making it possible to incorporate 3D elements into the floor. The EPDM Jumping Hills appeals to the imagination of children and invite them to hop around from hill to hill. The Jumping hills are available in 2 sizes.

Additionally, we also offer similar products as Orca and Tree stump. These kinds of 3D elements add extra play value to your kids' corner by stimulating children to move, jump and climb.

## Fences

With our fencing and play panels, you can easily create a complete play wall or a clearly defined children's play corner. IKC fencing features recognisable, solid wooden posts that allow you to connect different play modules into one coherent setup. Our fencing is available in a standard version or can be personalised. You can also expand your play corner at any time by adding new panels.
