04 COMPARISON

Compare the Protector, Storm and Air case ranges.

10 STORM

Lightweight, injection-moulded hard cases.

16 AIR TRAVEL

Air cases made even more travel friendly!

22 MICRO CASE: GEN 2

A new take on an old Peli™ classic. Small, but mighty.

06 PROTECTOR

The most popular cases in the Peli™ range.

14 AIR

Cousin of the Protector case, but up to 40% lighter!

20 E.D.C

Every day carry: Portable cases and wallets.

24 TOOL

Rugged, user-friendly tool cases.

25 MOBILITY

Transportable Protector cases for all-terrain use.

25 RACK

Shockproof rack cases that utilise a 19" steel rack.

26 ACCESSORIES

Organise and protect with Peli accessories.

28 CUSTOM FOAM

Made-to-measure, bespoke foam inserts.

30 CUSTOMISATION

A variety of services to customise your case.

32 CASE INDEX

A handy specification table of every Peli case.

“
You can't go far wrong with the Peli range of hard, plastic cases which are designed and tested to be the best in the business.
”

— Digital Camera World

PROTECTOR, STORM & AIR. WHAT'S THE DIFFERENCE?

Each case in the Pelican™ Protector, Storm, and Air case ranges is built to last and is of course backed by the famous Pelican Lifetime Guarantee. Despite this, however, there are noticeable distinctions between the ranges.

PROTECTOR CASES

The Pelican Protector range is manufactured from a structured resin shell that does not dent and protects sensitive equipment against extreme conditions. The automatic pressure equalization valve stops moisture from entering the case and prevents vacuum-lock so it can be opened easily at any altitude. A neoprene o-ring seal ensures the case is watertight and the easy-open, double-step latches secure the contents while metal reinforced padlock protectors stop the case from being cut or pried open.

STORM CASES

Pelican Storm cases use an HPX™ resin material that has proved tough during low temperature and impact tests. The patented Press & Pull latches open smoothly yet hold fast when the case is taking a beating. O-ring sealed and watertight, each model also has an integrated Vortex® valve which keeps water and dust out while automatically adjusting internal air pressure to ensure the case is easy to open at any altitude.

AIR CASE

Engineered to maintain the same level of durability as the classic Pelican cases, the Air models' weight has been reduced by up to 40 percent. The Air case range is constructed of premium lightweight HPX2 resin, the next generation of Pelican's proprietary formula that rebounds from stress without breaking. Pelican Air cases feature the same Automatic Pressure Release Valve while the next generation (since 2020) Air case models feature press-button latches.

**“
The case is extremely robust. The inserts
are easy to customise for your specific
requirements and afford excellent protection.
”**

— Roger E. via Trustpilot

THE WORLD'S MOST TRUSTED CASE

From industrial to emergency services and military applications; and with starring roles in blockbuster movies along the way - the waterproof, crushproof and dustproof Protector has been the first name in protective cases for decades. The Peli™ Protector range is renowned for its Military Grade protection and each case of course comes with the famous Peli Lifetime Guarantee, for extra peace of mind.

READY FOR
ANYTHING

STORM CASES

PRESS & PULL® LATCHES

Open easily with the
press of a button.

IMPACT RESISTANT
And withstands extreme
temperatures.

COMFORT-GRIP HANDLES

Wide, soft-grip handles for
a comfortable, non-slip
grip.

LOCKABLE HASPS
Moulded in hasps for
padlock attachment.

VORTEX® PRESSURE RELEASE VALVE

Prevents vacuum lock
and allows the case to
be opened easily after
extreme changes in
altitude.

RUGGED IN-LINE WHEELS

Ball bearing wheels
provide easy rolling while
shielded from dirt and
other contaminants.

THERE'S NO OTHER CASE LIKE IT!

Combining Press & Pull® latches, with its smooth and lightweight HPX™ construction, Storm has become a choice synonymous with those demanding Peli™ protection with a refined finish.

“
Peli Storm cases are the best in my opinion.

AIR CASES REDEFINE THE MOULD

Combining an evolutionary design and construction with a next generation HPX™ resin; Peli™ Air is up to 40% lighter than its peers, but is still built Peli-tough.

EFFICIENCY IN EVERY ADVENTURE

Travel with greater efficiency using Peli™ Air Travel Cases. These cases utilise lid organisers with zipped compartments for storing larger items, while transparent mesh pockets securely house passports and cables. The included packing cubes neatly bundle your gear, allowing you to arrange items by stacking or grouping them side by side. Peli™ Air Travel Cases are engineered for versatility – effortlessly switch out the packing cubes and choose from optional Trempak™ dividers, padded dividers, or Pick N Pluck™ foam (available separately).

As well as all the features and benefits of the classic Air case range, Air Travel cases also feature:

AIR TRAVEL CASES

- 1535 Travel: Maximum airline carry-on size*
- 1615 Travel: Maximum airline check-in size*
- Lid Mesh and Zipped Storage Compartments
- Removable Packing Cube Organisers
- Press and Pull Latches with TSA Key Locks
- Retractable extension trolley handle
- Quiet-roll wheels
- Available in colours Black, Oxblood & Indigo

*Check with your airline for exact measurement requirements

AIR TRAVEL CASES

“ Provides good, secure and robust storage. Perfect for travelling. ”

ENDURANCE

“
I am beyond impressed with the Pelic G5 field wallet. Its rugged and waterproof RFID-blocking shell provides ultimate peace of mind. A true game-changer!
”

— Alex L. via Email

PELI™ EDC: HANDY, COMPACT & RELIABLE

Introducing the Everyday Carry (EDC) collection - a comprehensive range of compact, sturdy, and dependable essentials for your daily needs. Discover our cutting-edge wallets, versatile micro cases, ruck cases, and memory card cases, designed to be portable, but still pack a punch!

G5 UTILITY FIELD WALLET

This wallet features a rugged dustproof, crushproof, and submersible design, with an aircraft-grade aluminium body for exceptional durability. The integrated RFID-blocking technology safeguards your cards from electronic theft. The included tough lanyard adds convenience, while the interior strap and mesh organiser, alongside stainless steel hinge pins and a Lifetime Guarantee, ensure reliable protection for your valuables in any setting.

MICRO CASES

All Pelic Micro Cases are completely waterproof and dustproof. When closed, the internal rubber liner acts as an O-ring seal, providing added cushioning to the items inside the case. Pick n Pluck foam inserts are available for the micro case range for further protection and customisation.

MEMORY CARD CASES

With a tough Polycarbonate exterior and a shock-absorbing foam insert liner, your memory cards are in safe hands. Pelic memory card cases come with a water-resistant seal, protecting your shots from water or moisture damage. Compact in size, it easily fits into bags and pockets, always ready to keep your cards secure and close by.

RUCK CASES

Each Ruck case boasts exceptional IP68 protection, safeguarding against the elements with water, dust, snow, sand, and dirt resistance. Equipped with an organiser in the lid and a divider tray in the base, these waterproof and crushproof compact cases are built for maximum protection and organisation. Designed as the ideal personal utility case, Ruck cases bring Pelic's renowned protection to your everyday life gear.

GOOD THINGS COME IN SMALL PACKAGES

CLASSIC FEATURES:

- Waterproof, crushproof, dustproof
- IP67 rated
- Automatic pressure release valve
- Lifetime Guarantee

NEW FEATURES:

- Dual latches
- Padlock hole for added security
- Removable protective liner
- Rubber o-ring seal
- Stackable
- New cling label design

“
A great addition to the Micro Case range! And stylish, as well!
”

— Grace K. via Email

“
If you have an expensive laptop to protect, this is a must buy!
”

— Paul H. via Trustpilot

SECURE, DURABLE, DEPENDABLE.

Peli™ laptop cases are practically indestructible, highly customisable and provide protection that a soft bag simply cannot offer. Designed with convenience in mind, the Peli laptop range ensures a hassle-free experience when checking it in for a flight.

Protector and Storm laptop cases are waterproof and virtually indestructible. Several cases in the Protector and Storm laptop range offer dedicated laptop inserts, providing more room to store accessories, important documents and more. The 1495 Protector features a 3 dial combination lock, while the iM2370 Storm laptop case features lockable latches for extra security.

TOOL CASES

TOOL ORGANISATION TO THE NEXT LEVEL

The Tool Case series boasts an array of features that cater to the demands of its users, ensuring their tools are organised and easily accessible. Each case is meticulously crafted to accommodate various types of tools, providing dedicated compartments and customisable layouts for efficient arrangement. From small precision instruments to larger power tools, Peli™ Tool Cases ensure that every item finds its rightful place.

Not only does the series excel in its functionality, but it also excels in durability. Constructed with high-quality materials, these cases can withstand the toughest of environments and endure rough handling during transportation. The rugged exterior shields the tools from impacts, drops, and harsh conditions, keeping them in pristine condition day in, day out.

TAILOR YOUR TOOL CASE

Individually tailored to fit tool kits perfectly, our custom foam inserts are expertly measured and cut to size. Elevate the personal touch with our high-quality, professional branding services, including custom decals, engraved nameplates, and screen printing, for further customising your tool boxes. By utilising coloured foam, effortlessly spot missing items and mitigate the risk of Foreign Object Damage. See pages 28-31 for details on customisation.

MOBILITY CASES

Four of the most popular Protector cases have gone off-road! Their rugged design encompasses larger, heavy duty wheels and stability blocks. The larger, polyurethane wheels with stainless steel bearings making them more stable on any terrain, from grass to gravel, while The stability blocks at the base make it less likely to topple even in high winds. Whilst the addition of the larger wheels mean these cases don't offer the same IP67 protection as most Peli™ cases, they are still crushproof and offer water and dust protection.

RACK CASES

An industry-leading range of 19" Rack Cases, which combine an impact absorbent outer shell, and heavy-duty internal shock mounts. These cases safeguard tech better than any other. All Peli™ Classic-V and Super-V Series are both rated for equipment loads up to 77kg. Mating columnar ribs create a rigid shell and also provide secure stacking of same-size cases. Each have a manual purge valve, so air pressure in the case can be equalised to the atmosphere, preventing vacuum-lock. The lid includes a fully sealed O-ring gasket that works with the purge valve to make the case fully watertight.

PICK 'N' PLUCK FOAM

Pick 'N' Pluck has been a staple of the Peli™ range since the very beginning and continues to be the most popular way to protect case contents. The pre-scored cubes allow the foam to be easily shaped around your gear as needed, protecting against knocks and drops in transit.

PADDED DIVIDERS

The Peli Padded Divider range has been used by many industries since their introduction into the market over 20 years ago. They are comprised of impact cushioning foam, wrapped in looped nylon, bookended with Velcro folds, designed to fit perfectly within your case and can be easily reconfigured as your contents changes.

TREKPAK

TrekPak allows you to make full use of the space available inside your case. The rigid divider pieces can be easily cut to size and then connected using the pins and ribbons. As your setup changes, your TrekPak can be reconfigured as required.

LID ORGANISERS

Across the Peli range you'll find a multitude of lid organisers custom designed for over 20 cases. Using a combination of pockets, wallets, straps and zips, Peli have created the largest range of lid organisers in our market.

MOLLE PANELS

The Molle panel enables the user to attach an unlimited combination of their own MOLLE pouches and Velcro™ straps to the inside of the case lid to organise gear to their own exact requirements. These panels use twist-cam locks to detach from the case for a swift changeout.

PANEL FRAMES

Panel frames are brackets that are secured to the inside of Protector cases to mount electronics or instrumentation panels. Bezel kits are the Storm case equivalent of a Panel Frame. They are made from aluminium and can be mounted in either the lid or the base of the case, depending on your requirements.

“
Peli case accessories are the perfect solution for organisation. The flexibility to customise the interior to fit my gear is invaluable. It keeps everything snug, secure, and protected, making it a must-have for anyone who values their equipment. Highly impressed!
 ”

— Timothy C. via Trustpilot

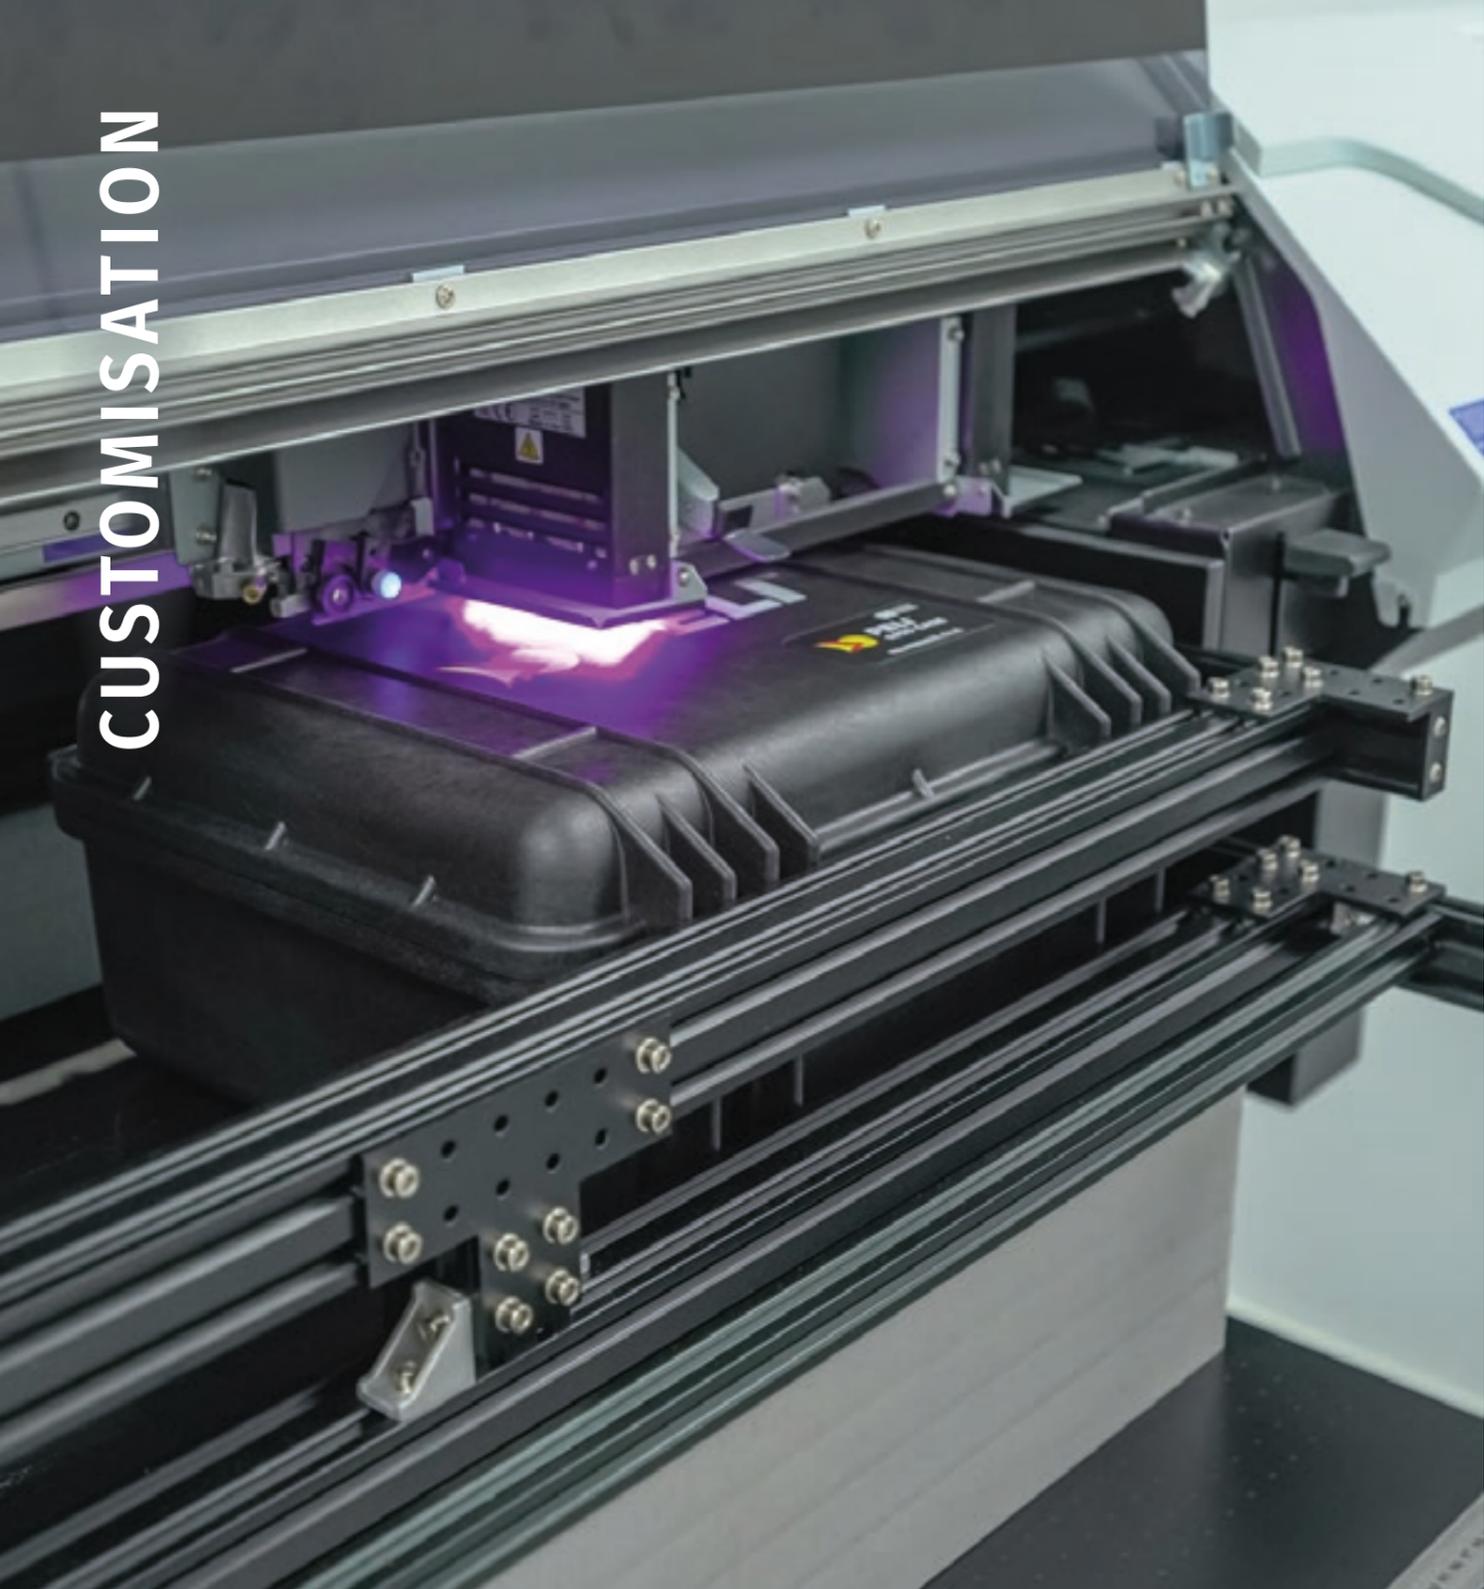

CUSTOM FOAM

MILITARY LEVEL PACKAGING

Peli Products (UK) offer a full customisation service, with military packaging design capability from MSA Foams, an MPAS accredited company. Bespoke military level packaging is designed to Defstan 81-41, with close MOD liaison. Custom foam inserts are highly durable and can be designed specifically for any equipment, such as weapons and ancillary items, for maximum protection.

PROTECTION THAT'S TAILOR MADE

Draw on the expertise of our in house foam designers to create bespoke protection with a professional finish for the valuable contents of your case. Our 32,000 sq ft manufacturing facility hosts several advanced foam conversion machines. We also use 3D scanning technology to create a protective solution which can be done in-house or on-site.

PERSONALISE YOUR PELI

Our in-house facility enables you to truly make your Peli™ case reflect your corporate or personal brand with a selection of customisation services including digital printing, custom decals, nameplates and more.

LASER ENGRAVING

Our foam laser engraving goes hand in hand with our custom foam service, whether it's for your branding, logo, or even batch identification.

DIGITAL PRINTING

Make your brand or business stand out by having your corporate identity printed directly onto your case using a digital printer.

NAMEPLATES

Engraved nameplates are a professional, functional way to customise your case. Nameplates are compatible with most Peli Protector cases.

DECALS

Custom decals are a great way to add a professional touch to your case, while raising awareness of your business or brand.
