

Multi Dimension Mover

ETF Ride Systems and Intamin redefine the limits of themed entertainment with the Multi Dimension Mover, a revolutionary hybrid system that merges the immersive storytelling of a trackless dark ride with the thrill energy of a coaster experience.

Two worlds. One extraordinary adventure.

Dark ride experience meets adrenaline

The Multi Dimension Mover redefines a seamless fusion of a dark ride experience and coaster-like thrills.

Developed by ETF Ride Systems and Intamin, this hybrid concept delivers an experience that's thrilling, adaptable, and endlessly creative. The system features proven ETF dark ride elements like, trackless, optical navigation, fast cabin rotation and 360° omni-directional motion. Guests can interact with the environment through shooters, pointers and buttons, triggering effects that bring any story to life and elevate immersion to the next level.

In addition to these features, the ride introduces innovative thrill elements. The Launch Track accelerates vehicles up to 36 km/h, 7 times faster than a standard dark ride, while the Bungee Drop provides a dynamic track-and-drop sequence, giving guests a unique free-fall or flight experience.

The result is a ride system that blurs the line between dark ride and coaster — an evolution of storytelling, motion, and imagination.

FEATURES & OPTIONS

• Type of ride system	hybrid; trackless dark ride combined with track-bound coaster
• Dark ride movement	trackless, any direction
• Navigation system	optical
• Vehicle capacity	6 guests per vehicle, optional 8
• Speed / Acceleration dark ride section	up to 1,5 m/s resp. 1,5 m/s ²
• Cabin rotation	360° up to 10 rpm, acceleration 45°/s ²
• Combined chassis and cabin rotation	up to 20 rpm
• Launch section	7 times faster than a regular dark ride system
• Speed coaster section	36 km/h
• Optional	uphill and downhill driving, on board sound, interactive target system, bungee drop / lift / fly
